
21st Session of the East Central and South-East Europe Division of the UNGEGN

Ljubljana, 26th of November 2015

Report of Poland 2012-2015

Submitted by Poland*

* Prepared by Maciej Zych, Commission on Standardization of Geographical Names Outside the Republic of Poland

Report of Poland 2012-2015

1. National standardization

1.1. Legal basis for standardizing geographical names

Official geographical names of the objects from the territory of Poland are established in different ways, depending on the type of an object:

- names of voivodships are established by the act
- names of counties, communes and national parks are established by the regulation of the Council of the Ministers
- names of auxiliary units of a commune (rural administrative units, housing estates, districts), street and square names are established by the resolution of a commune council
- names of localities and physiographic objects are established by the regulation of the Minister of the Interior and Administration after obtaining the opinion from the Commission on Names of Localities and Physiographic Objects
- names of nature reserves are established by the regulation of the regional director of the environmental protection
- names of landscape parks are established by the regulation of a voivode
- names of Natura 2000 areas are established by the regulation of the Minister of the Environment
- names of the protected landscape areas, natural monuments and other protected areas are established by the regulation of a voivode or the resolution of a commune council

Apart from official names, there are standardized names in Poland, which are established in different ways, depending on the type of an object:

- names of physiographic objects (in case when an object does not have an official name) are established by the resolution of the Commission on Names of Localities and Physiographic Objects
- additional names of localities and physiographic objects in the languages of the minorities are established by the decision of the Minister of the Interior and Administration after obtaining the opinion from the Commission on Names of Localities and Physiographic Objects
- additional names of streets, squares, etc. in the languages of the minorities are established by the resolution of the commune council after obtaining a consent from the Minister of the Interior and Administration
- names of other objects such as buildings, railway stations, airports and harbor docks are established by their proprietors
- Polish names of geographical objects outside Poland (exonyms) are established by the resolution of the Commission on Standardization of Geographical Names Outside the Republic of Poland.

1.2. Legislation concerning geographical names

An “Act of 29 August 2003 on official names of localities and physiographic objects” (“Ustawa z dnia 29 sierpnia 2003 r. o urzędowych nazwach miejscowości i obiektów fizjograficznych”; see English translation: http://ksng.gugik.gov.pl/english/files/act_on_official_names_of_localities_and_physiographic_objects.pdf) was approved in 2003, in place of the “Ordinance of the President of the Republic of Poland on establishing names of localities and on numbering properties” (“Rozporządzenie Prezydenta Rzeczypospolitej o ustaleniu

nazw miejscowości i o numeracji nieruchomości.”) which came into force in 1934. In the Act the following were defined:

- objects for which official names are established,
- principles and the mode of establishing, changing and abolishing names of localities and their parts, and official names of physiographic objects,
- principles of the activity of the Commission on Names of Localities and Physiographical Objects,
- the way of establishing and proclaiming official indexes of the names of localities and their parts and names of physiographic objects,
- principles of publishing national gazetteer.

The other acts, that are relevant for establishing names:

- the “Act of 24 July 1998 on the implementation of a three-level territorial division of the country” (“Ustawa z dnia 24 lipca 1998 r. o wprowadzeniu zasadniczego trójstopniowego podziału terytorialnego państwa”) – official names of voivodships (first level administrative units),
- the “Act of 5 June 1990 on the county self-government” (“Ustawa z dnia 5 czerwca 1998 r. o samorządzie powiatowym”) – official names of the counties (second level administrative units),
- the “Act of 8 March 1990 on the commune self-government” (“Ustawa z dnia 8 marca 1990 r. o samorządzie terytorialnym”) – official names of communes (third level administrative units) and their seats, auxiliary units of a commune, streets and squares,
- the “Act of 16 April 2004 on environment protection” (“Ustawa z dnia 16 kwietnia 2004 r. o ochronie przyrody”) – official names of national parks, nature reserves, landscape parks, protected landscape areas, Natura 2000 areas, natural monuments and other protected areas,
- the “Act of 6 January 2005 on national and ethnic minorities and on the regional language” (“Ustawa z dnia 6 stycznia 2005 r. o mniejszościach narodowych i etnicznych oraz o języku regionalnym”; see English translation: http://ksng.gugik.gov.pl/english/files/act_on_national_minorities.pdf) – additional names of localities and physiographic objects, streets, squares etc. in the languages of the minorities,
- the Act of 17 May 1989 “Geodesy and cartography law” (“Ustawa z dnia 17 maja 1989 r. – Prawo geodezyjne i kartograficzne”) – Polish names of geographical objects outside Poland.

1.3. Organizations standardizing geographical names

In Poland there is no one separate agency dealing with geographical names standardization, but there are two commissions engaged in the standardization of geographical names:

- **Commission on Names of Localities and Physiographical Objects** (Komisja Nazw Miejscowości i Obiektów Fizjograficznych), affiliated to the Minister of Administration and Digitization, establishes names used within Poland’s boundaries,
- **Commission on Standardization of Geographical Names Outside the Republic of Poland** (Komisja Standaryzacji Nazw Geograficznych poza Granicami Rzeczypospolitej Polskiej), affiliated at the Surveyor General of Poland, responsible for standardizing Polish geographical names of the world.

Commission on Names of Localities and Physiographic Objects (web site: <http://knmiof.mac.gov.pl>), established by the Minister of Administration and Digitization, is a consultative body as far as the names of the Polish territory are concerned. The Commission pronounces judgments on applications coming from particular communes to the Minister which concern establishing, changing or abolishing Polish names of localities, their parts or physiographic objects. The Commission pronounces judgments on analogous applications concerning changes of the officially established type of a particular locality or physiographic objects. The Commission has the right to put forward a proposal to the Minister concerning establishing, changing or abolishing the name. Within the scope of its activities, the Commission also standardizes the names of those physiographic objects, which have not been officially established yet. The Commission participates in developing national gazetteer.

Since 2005 the Commission has pronounced judgments on applications coming from particular communes to the Minister which concern establishing additional names of localities and physiographic objects in the languages of the national and ethnic minorities and in the regional language.

The Commission has only the position of the advisory body, however until now the Minister of the Interior and Administration has not made any decisions contradictory to the Commission's recommendations. The decision process runs as follows: after receiving the opinion of the Commission the Minister of Internal Affairs and Administration changes the names, such changes are being published once a year, as a Minister's ordinance in the *Journal of Laws of the Republic of Poland (Dziennik Ustaw Rzeczypospolitej Polski)*. These changes always take effect on the 1st of January.

Acting pursuant to the Act on Official Names of Localities and Physiographic Objects, the Commission on Names of Localities and Physiographic Objects, in the period of 2012-2015, issued its opinions on motions on determination, changing and abolishing official names of localities and types of localities proposed by the communes. During this period, it analyzed ca. 800 motions.

In the period of 2012-2015, the Commission on Names of Localities and Physiographic Objects analyzed and standardized a total of ca. 1000 names of caves: proposals of name changes, proposals of introduction and abolishing of cave names in the area of Świętokrzyskie Mountains, Nidziańska Basin, Polish Lowland, Beskid Mountains and Tatra Mountains.

The Commission standardized also ca. 950 names of water objects. It analyzed and determined ca. 5500 names of physiographic objects in the following voivodships: Lubuskie, Mazowieckie, Lubelskie, Warmińsko-Mazurskie, Pomorskie.

In 2012, the Commission on Names of Localities and Physiographic Objects issued its opinion on the Regulation of the Minister of Administration and Digitalisation of 13 December 2012 (Journal of Laws Dz. U. of 2013, item 200) on the List of Names of Localities and Their Parts. The Regulation is a collection of official and legally approved names of localities in Poland.

In the period of 2012-2015, the Commission, acting pursuant to the Act on National and Ethnic Minorities and on the Regional Languages, expressed its opinion on a total of ca. 270 additional names of localities in German, Belorussian and Kashubian languages.

Commission on Standardization of Geographical Names Outside the Republic of Poland (web site: <http://ksng.gugik.gov.pl/english/index.php>), established by the Surveyor General of Poland, is an advisory body for the geographical names of objects outside Poland. It represents Poland in the matters of names on the international forum.

The Commission's tasks are:

- establishing, changing and abolishing the recommended Polish geographical names of the world (exonyms)
- publishing indexes of the world's geographical names and the established Polish exonyms
- establishing the principles of romanization from languages which use non-Roman writing systems
- pronouncing the judgments on publications concerning geographical names of the objects outside Poland issued by a variety of Polish publishers
- putting forward foreign-language forms of names of more important geographical objects located on the Polish territory for the international purposes,
- participation in UNGEGN works
- representing Poland on UNGEGN forum
- participation in international conferences and meetings devoted to standardization of geographical names
- conveying information about the progress of the works on names in Poland and binding principles of the use of Polish geographical terminology on international forum
- developing the Polish toponymic guidelines
- informing Polish institutions about international arrangements.

The Commission's decisions are systematically published on website: http://ksng.gugik.gov.pl/nazwy_pol.php.

1.4. List of official names of localities and their parts

“List of official names of localities and their parts” was published at the beginning of 2013 in the Journal of Laws of the Republic of Poland as the “Regulation of the Minister of Administration and Digitization of 13 December 2012 on the List of Official Names of Localities and Their Parts” [“Rozporządzenie Ministra Administracji i Cyfryzacji z dnia 13 grudnia 2012 r. w sprawie wykazu urzędowych nazw miejscowości i ich części”]¹. This is the second in Polish history official list of localities and their parts situated on Polish territory (previous official list was published in the years 1980 to 1982). The list is published in Polish only.

The list contains **103,225** official names of localities and their parts, in it: 908 names of towns and cities, 43,051 names of villages, 6,708 names of parts of towns and cities, 36,349 names of parts of villages, 5,136 names of settlements, 4,641 names of hamlets of villages, and 6,432 other names. The list is arranged in a table with eight columns: the name of locality is indicated in the first column, in the second – officially established type of locality, in the third, fourth and fifth columns – administrative unit: commune, county and voivodship, in the sixth column – the identifier of locality from the National Official Register of the Territorial Division of the Country (TERYT), in the seventh – genitive ending for names of localities, in the eighth column – adjective (only for names of towns and villages).

Amendments to the “List of official names of localities and their parts” are introduced in pursuance of regulations of the Minister of Administration and Digitization on establishing, changing and abolishing of official names of localities announced in the Journals of Laws of the Republic of Poland. These changes are effect of changes in the names, as well as changes in type of name (changes of type can be result of changes of boundaries of cities and towns).

¹ “List of Official Names of Localities and Their Parts” is available on the website of the Government Legislation Centre: <http://www.dziennikustaw.gov.pl/du/2013/200/1>, as well as on the website of the Commission on Standardization of Geographical Names Outside the Republic of Poland: http://ksng.gugik.gov.pl/english/official_names.php.

Moreover, regulations of the Council of Ministers on boundaries change might bring changes of a type of locality. All amendments come into force on January 1.

The following regulations have been announced so far:

– regulation of the Minister of Administration and Digitization of 20 December 2012: 14 new locality names have been established, 68 names have been changed (including 33 changes of the name, 6 changes of the name and type of locality, and 29 changes of the type of locality only), and 67 names have been abolished;

– regulation of the Council of Ministers of 30 July 2013: as a result of granting localities the status of town and enlargement of boundaries of towns, 11 localities changed its type (5 for “town”, and 6 for “part of town”);

– regulation of the Minister of Administration and Digitization of 13 December 2013: 13 new locality names have been established, 57 names have been changed (including 26 changes of the name, 7 changes of the name and type of locality, and 24 changes of the type of locality only), and 44 names have been abolished;

– regulation of the Council of Ministers of 29 July 2014: as a result of granting localities the status of town and enlargement of boundaries of towns, 26 localities changed its type (2 for “town”, and 24 for “part of town”);

– regulation of the Minister of Administration and Digitization of 4 December 2014: 5 new locality names have been established, 39 names have been changed (including 14 changes of the name, 4 changes of the name and type of locality, and 21 changes of the type of locality only), and 59 names have been abolished.

Altogether, after the publication of the “List of Official Names of Localities and Their Parts”, 32 new locality names have been established, 201 names have been changed (including 73 changes of the name, 17 changes of the name and type of locality, and 111 changes of the type of locality only), and 170 names have been abolished.

All these changes have been incorporated to the new edition of the “List of Official Names of Localities and Their Parts”, published in October 2015 in the Journal of Laws of the Republic of Poland as the “Announcement of the Minister of Administration and Digitization of 4 August 2015 on the List of Official Names of Localities and Their Parts” [“Obwieszczenie Ministra Administracji i Cyfryzacji z dnia 4 sierpnia 2015 r. w sprawie wykazu urzędowych nazw miejscowości i ich części”]². This list is arranged similar as the previous one – as a table with eight columns. The list contains **103,086** official names of localities and their parts, those of villages and parts of villages being the most numerous (see table 1).

Table 1. Number of named localities according to their particular types.

Type of locality	Number
city/town [miasto]	915
part of a city/town [część miasta]	6,710
village [wieś]	43,068
part of a village [część wsi]	36,263
housing estate [osiedle]	5
housing estate of a village [osiedle wsi]	5
colony [kolonia]	2,203
part of a colony [część kolonii]	199
colony of a village [kolonia wsi]	974
colony of a colony [kolonia kolonii]	11

² The new “List of Official Names of Localities and Their Parts” is available on the website of the Government Legislation Centre: <http://dziennikustaw.gov.pl/DU/2015/1636/1>.

colony of a settlement [kolonia osady]	6
settlement [osada]	5,132
part of a settlement [część osady]	10
settlement of a village [osada wsi]	520
settlement of a colony [osada kolonii]	1
settlement of a settlement [osada osady]	3
hamlet [przysiółek]	133
hamlet of a village [przysiółek wsi]	4,619
hamlet of a colony [przysiółek kolonii]	41
hamlet of a settlement [przysiółek osady]	56
forest settlement [osada leśna]	1,966
forest settlement of a village [osada leśna wsi]	224
tourist refuge [schronisko turystyczne]	22
TOTAL	103,086

1.5. Multilingual areas

Consistent with the definitions in the “Act of 6 January 2005 on national and ethnic minorities and on regional languages”, national minorities (Belarusian, Czech, Lithuanian, German, Armenian, Russian, Slovak, Ukrainian and Jewish) and ethnic minorities (Karaim, Lemko, Roma and Tartar) appear in Poland as well as a minority using a regional language (Kashubian). The Act allows the language of these 14 minorities to be used as a “supporting language” in contacts with commune bodies. A minority language as a supporting language may be used exclusively within those communes where the population belonging to the minority whose language is to be used amounts to at least 20 percent of a given commune’s population and the commune has been entered in the “Official Register of Communes in which a supporting language is used” (“Urzędowy Rejestr Gmin, w których jest używany język pomocniczy”). Entry into the Register is performed exclusively on an application of the council of the commune in which the minority language is to be obligatory. There are 33 communes, which introduced supporting languages by 1 September 2015: 5 with the Belarusian language, 22 with German, 5 with Kashubian, and one with Lithuanian. In the period 2012-2015 the supporting language was introduced in 3 communes:

- Linia commune (Wejherowski County, Pomorskie Voivodship) – the Kashubian language, 23 April 2012,
- Żukowo commune (Kartuski County, Pomorskie Voivodship) – the Kashubian language, 17 July 2013,
- Luzino commune (Wejherowski County, Pomorskie Voivodship) – the Kashubian language, 21 February 2014.

The Act also lays down that traditional names in a minority language for localities, physiographic objects and streets may be used as “additional names” alongside geographic names established in the Polish language. The additional names may be established for objects located in communes inhabited by a minority in whose language these names are used, constituting at least 20 per cent of residents. Names of inhabited localities may also be established for communes, which do not fulfill the quantitative criterion for the number of residents belonging to a minority. In the case of such localities, an additional name may be introduced provided that, as a result of social consultations, over 50 per cent of residents were in favor of this name.

Additional names in minority languages have been introduced in 1211 localities and parts of them, located in 58 communes (as of 1 September 2015). This number consists of 359 German names in 31 communes, 786 Kashubian names in 23 communes, 30 Lithuanian

names in one commune, 27 Belarusian names in one commune and 9 Lemko names in 2 communes. However, no additional names for geographical objects and streets have been introduced yet. In the period 2012-2015 424 minority names were introduced:

- 35 German names in 4 communes: 1 name of town, 33 names of villages, and 1 name of hamlet,
- 389 Kashubian names in 12 communes: 2 names of towns, 178 names of villages, 70 names of parts of a villages, 19 names of colonies, 1 name of part of a colony, 92 names of settlements, 1 name of part of settlement, 4 names of hamlets, and 22 names of forest settlements.

Full, consistently updated, list of the additional names in minority languages is available on the website of the Commission on Standardization of Geographical Names Outside the Republic of Poland: http://ksng.gugik.gov.pl/english/files/list_of_minority_names.pdf

Table 2. Number of additional names in minority languages, as adopted in given years.

	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	total
Belarusian	–	–	–	–	–	27	–	–	–	–	27
German	11	15	149	63	48	38	11	7	17	–	359

Lemko	–	–	1	–	–	8	–	–	–	–	9
Lithuanian	–	–	30	–	–	–	–	–	–	–	30
total	11	91	190	144	136	215	11	270	101	42	1211

1.6 Toponymic guidelines for map and other editors

The fourth, revised and extended, edition of the *Toponymic guidelines of Poland for map editors and other users* was published in December 2010. The changes introduced to the new edition, apart from the recent actualization (made on the basis of the latest available materials), concern the information about Polish language, rules and legal base for standardization of geographical terminology, extension of terminology dictionaries and indices of abbreviations. Several maps completing the text and an extensive part, devoted to national and ethnic minorities and communities using a regional language and other languages used by them, were added. Annexes have been extended by adding a mini dictionary of former geographical terms and a full list of officially established names in the languages of minorities. There is a change in comparison with the previous editions, which concerns publication of the toponymic guidelines also in Polish (thus the whole publication is bilingual). The publication is available in electronic version in PDF format, at the website of the Commission on Standardization of Geographical Names Outside the Republic of Poland: <http://ksng.gugik.gov.pl/english/tgp.php>.

Constantly updated information about administrative division of Poland is available at the website of the Commission on Standardization of Geographical Names: http://ksng.gugik.gov.pl/english/mapa_adm.php. This contains lists of current administrative units, maps, and some additional information about administrative division in Poland.

2. Exonyms

Standardizing exonyms is the task of the Commission on Standardization of Geographical Names Outside the Republic of Poland affiliated at the Surveyor General of Poland. The Commission's decisions do not have normative power but are recommendations.

The Commission meets 4 to 9 times yearly, delivering its opinions on proposals standardizing Polish geographical names of the world, their amendments or elimination from the list of recommended exonyms. All amendments introduced in Polish exonyms are published on the Commission's website (http://ksng.gugik.gov.pl/nazwy_pol.php).

The new list of Polish exonyms, entitled "Official list of Polish geographical names of the world" ("Urzędowy wykaz polskich nazw geograficznych świata"), was published in the end of 2013. The list is the result of long-term Commission's work on the standardization of Polish geographical names of the world. It lists Polish names for **13,358** geographical objects that lie outside the boundaries of Poland. For each object, there are given: the Polish name, and the original name (endonym). For names in languages that are written in non-Roman scripts, Romanized forms are given in accordance with the principles adopted by the Commission for use in Poland for geographical names in a given language. Following these names, the objects' coordinates have been posted. If necessary, the additional information and observations are provided, such as information about localization of the transboundary object in other countries, additional characteristics of the object or its localization, information about the location of part of locality in the boundaries of independent locality, and selected historical names of the object.

The list has been divided into eight parts (chapters): seven of them correspond to the traditionally determined parts of the world (Europe, Asia, Africa, North America, South America, Australia and Oceania, Antarctica), the eighth one is devoted to undersea objects. Next, the names are posted according to alphabetically arranged countries and non-self-government territories. Names of geographical features from the areas of individual countries or territories are arranged by categories.

The list has been published in Polish only, but the inset in English has been also prepared. This inset includes translation of introductory part of the publication, i.e.: editorial page, table of contents, "from the Publisher", preface, introduction, Romanization rules, explanation of abbreviations, as well as translation of the footnotes contained in the publication and information about name index.

The list is available on-line: http://ksng.gugik.gov.pl/english/wpngs_en.php.

The Commission regular updates the list. Information on the updates is available on the Commission's website, but in Polish only (<http://ksng.gugik.gov.pl/wpngs.php>). Since the publication of the list following changes have been introduced:

- 105 Polish names have been added for geographical objects in 18 countries (19 administrative units, 76 localities, 1 part of locality, 1 region, 1 river, 1 coast, 1 highland, 1 cave, and 4 areas of environment protection),
- 7 Polish names have been changed for geographical objects in 5 countries (5 administrative units and 2 localities),
- 13 Polish names have been deleted for geographical objects in 6 countries (11 administrative units, 1 mountain range, and 1 area of environment protection).

3. Toponymic data files and gazetteers

The final stage of work on elaborating the State Register of Geographical Names is presently under way, consisting of names verification. Currently the State Register of Geographical Names holds approximately 238,930 names of which ~125,000 are names of localities and its parts, ~31,000 are names of water objects, ~34,000 are names of land shaping objects, and ~49,000 are names of other objects. In the State Register of Geographical

Names the following types of names are collected: official names (i.e. names published by ordinance of the Minister of Interior), standardized names (i.e. names adopted by the Commission on Names of Localities and Physiographical Objects but not yet published by ordinance of the Minister of Interior), unstandardized names (i.e. other names listed on topographic maps or other sources). The official names, contained in the Register, will be published in a national gazetteer. All names, contained in the Register, are also accessible in official Polish geoportal (www.geoportal.gov.pl). According to the regulation of the Minister of the Administration and Digitization of 26 March 2012 on the State Register of Geographical Names, Polish exonyms will be also included there.

Moreover, the Central Statistical Office runs the base of official geographical names named “National Official Register of the Territorial Division of the Country” (“Krajowy Rejestr Urzędowy Podziału Terytorialnego Kraju”). That document contains a regularly updated list of units of the territorial division, a specification of names of localities (103,124 names as at September 1, 2015) and a specification of names of streets (254,885 names as at September 1, 2015). All names are accessible on the Internet website of Central Statistical Office: <http://www.stat.gov.pl/broker/access/index.jspa>.

The General Directorate for Environmental Protection (Generalna Dyrekcja Ochrony Środowiska) runs the Central Register of Nature Conservation Forms (Centralny Rejestr Form Ochrony Przyrody) that includes all areas of nature conservation in Poland (national parks, nature reserves, landscape parks, protected landscape areas, Natura 2000 areas, natural monuments and other protected areas) with their names, if they exist. Central Register of Nature Conservation Forms is available on-line: <http://crfop.gdos.gov.pl/CRFOP/index.jsf>.

4. Romanization systems

According to the *Regulation of the Minister of the Interior and Administration of 24 March 2000 on the manner and scope of activity of the National Council of Geodesy and Cartography and Commission on Standardization of Geographical Names Outside the Republic of Poland and principles governing payment of their members*, one of the scopes of activity of the Commission refers to establishment of “romanization rules governing names of states, non-self-governing territories, administrative units, localities, physiographical objects, and other geographical objects originally expressed by means of non-Roman writing systems”.

As a part of its activity the Commission adopted, for each language exclusively, both rules of transliteration and rules of Polish phonetic transcription. There are some exceptions for Asian languages – for Chinese, Japanese, Korean, Thai, Lao, Burmese and Khmer only the international Romanization system is recommended.

Rules of romanization adopted by the Commission are available on Commission’s web site: <http://ksng.gugik.gov.pl/latynizacja.php>.

Since 2012 the following rules were adopted:

- **Amharic** – recommended are both transliteration (the BGN/PCGN 1967 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/amharski.pdf>),
- **Arabic** – recommended are both transliteration (the UN system of 1972) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/arabski.pdf>),
- **Bengali** – recommended are both transliteration (the ISO 15919:2001 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/bengalski.pdf>),

- **Bulgarian** – revised rules (new system of transliteration), recommended are both transliteration (the Bulgarian national system of 2006) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/bulgarski.pdf>),
- **Hebrew** – recommended are both transliteration (the Academy of the Hebrew Language system of 1957) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/hebrajski.pdf>),
- **Hindi** – recommended are both transliteration (the ISO 15919:2001 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/hindi.pdf>),
- **Lemko** – recommended are both transliteration (based on the Polish Standard PN-70, N-01201 for the East Slavic languages) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/lemkowski.pdf>),
- **Maldivian** – recommended are both transliteration (the Maldivian Government 1987 System) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/malediwski.pdf>)
- **Nepali** – recommended are both transliteration (the ISO 15919:2001 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/nepalski.pdf>)
- **Sinhalese** – recommended are both transliteration (the ISO 15919:2001 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/syngaleski.pdf>)
- **Tamil** – recommended are both transliteration (the ISO 15919:2001 system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/tamilski.pdf>),
- **Ukrainian** – revised rules (new system of transliteration), recommended are both transliteration (the Ukrainian national system of 2010) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/ukrainski.pdf>),
- **Urdu** – recommended are both transliteration (the KSNG system – modification of the Zograf romanization system) and traditional Polish transcription (<http://ksng.gugik.gov.pl/pliki/latynizacja/urdu.pdf>).

5. Country names

In consultation with the Minister of Foreign Affairs and the Council for the Polish Language the second edition of the “Official list of names of countries and non-self-governing territories” was published in the end of 2013 (the first edition was published in 2011; according to the regulation of the Minister of the Interior and Administration, the list is published every two years). The list contains 195 countries recognized by the Republic of Poland (namely: 193 member states of the United Nations Organization, as well as Kosovo and Vatican City) and 69 non-self-governing territories. Attached to the register is a list of ten territories with undetermined or disputed international status and others. The names of countries, territories, and their capitals included in the list have obtained approval of the Polish Ministry of Foreign Affairs. The footnotes explaining the status of countries and territories have been provided by the Ministry of Foreign Affairs. The adjectives derived from names of countries and territories, as well as names of citizens and inhabitants have been provided in line with the opinion provided by the Orthography and Onomastics Unit of the Council for the Polish Language.

The list has been published in Polish only, but the inset in English has been also prepared. This inset includes translation of introductory part of the publication, i.e.: editorial page, table of contents, “from the Publisher”, introduction, Romanization rules, explanation of abbreviations, as well as translation of the footnotes contained in the publication. In addition four Polish-English dictionary are included in this inset: names of countries, names of non-

self-governing territories, names of territories with undetermined or disputed international status, and names of languages.

The list is available in printed version as well as in PDF format on Commission's website: <http://ksng.gugik.gov.pl/english/wykaz.php>. The third updated edition of the list will be published in December 2015.

6. Other information

The Commission on Standardization of Geographical Names Outside the Republic of Poland has translated into Polish the UNGEGN's document titled "Resolutions Adopted at the Nine United Nations Conferences on the Standardization of Geographical Names 1967, 1972, 1977, 1982, 1987, 1992, 1998, 2002, 2007". This document is accessible on the Commission's website: http://ksng.gugik.gov.pl/pliki/rezolucje_ONZ.pdf. The resolutions adopted in the Tenth United Nations Conference on the Standardization of Geographical Names (New York, 2012) were translated into Polish in 2014 – this document is accessible on the Commission's website: http://ksng.gugik.gov.pl/pliki/rezolucje_ONZ_10.pdf.

The new Polish edition of "Glossary of Terms for the Standardization of Geographical Names" was published at the end of 2014. "Glossary of Terms for the Standardization of Geographical Names" has been prepared by the UNGEGN Working Group on Toponymic Terminology, with Professor Naftali Kadmon as convenor and general editor of the publication. The Working Group developed "Glossary" in the English version – it was presented at the Seventh United Nations Conference on the Standardization of Geographical Names, held in New York on 13-22 January 1998. On the basis of this publication the first Polish translation was prepared. It was made by Jerzy Kondracki and issued by the Head Office of Geodesy and Cartography in 1998. In this Polish edition numerous changes and additions to the original English text were introduced.

In 2002, during the Eight United Nations Conference on the Standardization of Geographical Names, the next version of "Glossary" was presented, with entries in six official languages of the United Nations (with minor changes to the English text in relation to the 1998 edition). In 2007, the "Addendum" was published, in which some definitions were changed and few terms were added.

The new Polish edition of "Glossary of Terms for the Standardization of Geographical Names" was prepared by the Commission on Standardization of Geographical Names Outside the Republic of Poland (Komisja Standaryzacji Nazw Geograficznych poza Granicami Rzeczypospolitej Polskiej) and published by the Head Office of Geodesy and Cartography (Główny Urząd Geodezji i Kartografii). This is a new translation of the English version of "Glossary" from 2002, which was made by Mark Lukasik. No significant changes and additions were introduced to this edition in relation to the English version, as it had been done in the case of the first Polish translation of 1998 – the original wording of the definitions and descriptions of introduction notes were retained. The Polish version of "Glossary" consists 375 entries, out of which 237 are entries with definitions and 138 are cross-reference entries. Entries are numbered and arranged in alphabetical order with respect to the English terms, then their Polish counterparts are given (omitted, however, for the most cross-reference entries) and Polish translations of definitions. After the main dictionary body the Polish-English index of terms was placed. All this means, that in this way the arrangement adopted in the original "Glossary" for the other official languages of the UN (ie. French, Spanish, Russian, Chinese, and Arabic) was strictly preserved – therefore, the Polish version could be regarded as an extension of the UNGEGN "Glossary" for another language. The translation of

“Addendum”, adopted by the UNGEGN in 2007, is also enclosed as an attachment. In this addendum 6 definitions were changed as well as 17 new entries were added, which involve 8 entries with definitions and 9 cross-reference entries.

The publication is available in PDF format on the website of the Commission on Standardization of Geographical Names Outside the Republic of Poland: http://ksng.gugik.gov.pl/pliki/glossary_of_terms_PL.pdf.

7. Co-operation with neighborhood countries and international organizations

Members of the Commission on Standardization of Geographical Names Outside the Republic of Poland participated actively in:

- 16–18 May, 2012 (Gdańsk, Poland): 12th meeting of the Working Group on Exonyms and meeting of the Working Group on Romanization Systems (hosted by the Polish Head Office of Geodesy and Cartography),
- 31 July – 9 August, 2012 (New York, USA): 10th United Nations Conference on the Standardization of Geographical Names,
- 1 August, 2012 (New York, USA): Meeting of the East Central and South-East Europe Division,
- 3 August, 2012 (New York, USA): Meeting of the Working Group on Romanization Systems,
- 6 August, 2012 (New York, USA): 13th meeting of the Working Group on Exonyms,
- 8 August, 2012 (New York, USA): Meeting of the Baltic Division,
- 23–25 May, 2013 (Corfu, Greece): 14th meeting of the Working Group on Exonyms and meeting of the Working Group on Toponymic Terminology,
- 18–20 September, 2013 (Tallinn, Estonia): 16th meeting of the Baltic Division,
- 8 November, 2013 (Prague, Czech Republic): Czech-Polish meeting on terminology used in the standardization of geographical names,
- 3–4 March, 2014 (Görlitz, Germany): German-Polish meeting on geographical names (jointly organized by Ständiger Ausschuss für geographische Namen (StAGN) and Commission on Standardization of Geographical Names Outside the Republic of Poland),
- 28 April – 2 May, 2014 (New York, USA): 28th Session of the United Nations Group of Experts on Geographical Names,
- 29 April, 2014 (New York, USA): 15th meeting of the Working Group on Exonyms,
- 1 May, 2014 (New York, USA): Meeting of the Working Group on Romanization Systems,
- 5–7 June, 2014 (Hermagor, Austria): 16th meeting of the Working Group on Exonyms,
- 20–22 August, 2014 (Kraków, Poland): Session of the International Geographical Union/International Cartographic Association Commission/Working Group on Toponymy “Toponymy – Geographical Aspects of Place Names” during the International Geographical Union Regional Conference,
- 5 November, 2014 (Warszawa, Poland): Czech-Polish-Slovak meeting on terminology used in the standardization of geographical names and on geographical names,
