Greece (GSRT)

Please note that country specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding Organisation	Contact Person	Eligible Institutions	Eligible Costs	Anticipated Amount of Funding for This Call	Anticipated no. of funded research projects	Max./Min. funding awarded to a partner
General Secretariat for Research and Technology (GSRT) Ministry of Development and Investments	KOSTOPOULOU Georgia (Mrs) Senior officer European Union Division International S&T Cooperation Directorate General Secretariat for Research and Technology/GSRT Ministry of Development and Investments 14-18, Mesogeion Ave, 115 27 Athens Tel. no: +30 2131300100, E-mail: g.kostopoulou@gsrt.gr	GSRT potentially supports all private and public applicants, namely: <ul style="list-style-type: none"> • Private – SME • Private – large companies • Non-profit research organisations • Higher education institutions • Public research organisations • Public organisations 	GSRT potentially supports the following types of RTD, namely: Industrial research, experimental development, feasibility studies (COMMISSION REGULATION (EU) No 651/2014 article 25) Further Specifications:	EUR 800.000 national funding that comes from structural funds and particularly from Operational Programme for Research, Entrepreneurship and Innovation 2014-2020, and should be compatible with Research and Innovation Smart Specialization Strategy (RIS3)	About 3-4	200-250K€ The potent applicants are strongly advised to contact NCP for further clarifications

Eligibility criteria:

Terms and Conditions

GSRT potentially supports all private and public legal entities namely: private enterprises (such as SMEs, large-companies etc), research organizations, higher education institutions, and other public organizations with R&D activities). Individuals as well as individual enterprises are not eligible under this scheme.

Applicants may submit in the current call, if they are enterprises, up to two (2) proposals from the same enterprise and for Public research Institutes and Universities up to (2) proposals at the level of the same Laboratory or School or Institute or Department.

Aid of intensity

Public research Institutes and Universities: the aid intensity can reach 100% for performing non-economic activities in accordance with point 19, article 2.1.1 of the «Framework for State aid for research and development and innovation» (2014/C 198/01).

Private Sector: (a) 50% of the eligible costs for industrial research; (b) 25% of the eligible costs for experimental development; (c) 50% of the eligible costs for feasibility studies.- The aid intensities for industrial research and experimental development may be increased up to a maximum aid intensity of 80% of the eligible costs as follows:

(a) by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises;

(b) by 15 percentage points if one of the following conditions is fulfilled:

(i) the project involves effective collaboration:

— between undertakings among which at least one is an SME, or is carried out in at least two Member States, or in a Member State and in a Contracting Party of the EEA Agreement, and no single undertaking bears more than 70 % of the eligible costs, or

— between an undertaking and one or more research and knowledge-dissemination organisations, where the latter bear at least 10 % of the eligible costs and have the right to publish their own research results;

(ii) the results of the project are widely disseminated through conferences, publication, open access repositories, or free or open source software.

-The aid intensity for feasibility studies may be increased by 10 percentage points for medium-sized enterprises and by 20 percentage points for small enterprises.

Duration of the projects

The duration of a funded project is **24** months. A possible extension of the duration under specific conditions can be accepted with a maximum up to the 1/3 of the initial duration, taking into account the starting date without

modifying the scientific or increasing the financial part of the project and the prerequisites of the current Operational Programme 2014-2020 (e.g. closing date for financing the projects in national level).

Evaluation

At national level, only eligibility check is conducted and not a full peer review at pre-proposals and full proposals stages. We rely on the evaluation made by the Call Evaluation Committee and external reviewers.

Foreseen cost categories:

(a) personnel costs: researchers, technicians and other supporting staff to the extent employed on the project.

(b) costs on fixed assets i.e. b1) costs of instruments and equipment to the extent and for the period used for the project. Where such instruments and equipment are not used for their full life for the project, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible and b2) costs for buildings and land, to the extent and for the duration period used for the project. With regard to buildings, only the depreciation costs corresponding to the life of the project, as calculated on the basis of generally accepted accounting principles are considered as eligible. For land, costs of commercial transfer or actually incurred capital costs are eligible.

(c) costs of contractual research, knowledge and patents bought or licensed from outside sources at arm's length conditions, as well as costs of consultancy and equivalent services used exclusively for the project.

(d) additional general costs and other operating expenses, including costs of materials, supplies, travel expenses, organization of meetings, dissemination/publicity costs, audit costs, incurred directly as a result of the project implementation.

(e) indirect costs = flat rate 15% of gross personnel costs including VAT .. Indirect costs are eligible for all legal entities and include costs that do not incur directly as a result of the project implementation (e. g. administrative and management costs, utility costs).

Note: -Please bear in mind that scientific management costs are eligible under category (a) whereas administrative and financial/legal management costs fall under eligible categories (e) or (d)-audit costs only.

- Subcontracting is allowed. This will be clarified in the guidelines of the national call.

Admitted costs

– Upper funding limits for the eligible costs

Upper limit of the total public funding will be 200.000 € per project (including indirect costs). Please note that this amount can be increased to 250.000 € per project if Greek partner assumes the project coordination. The maximum

state aid intensity will be calculated according to the provisions of the European state aid rules and regulations in force (type of research activity, size of the participating enterprise, collaborative research).

National/regional topic priorities :

Research areas 1, 2 and 3A (Compatibility with RIS3 is asked)

TRL3-(8) (according to COMMISSION REGULATION (EU) No 651/2014/Definitions for Aid for Research, Development and Innovation, pages 24-26/par. 83-96)

More details in the national/regional call announcement :

Submission at the national level is required at a later stage. A national call will be published to support the approved, at the transnational level, proposals only. Detailed information on the procedure and the funding rules will be provided at the GSRT website in the guidelines of the national call, during the submission period.

--	--	--	---	--	--	--

- Organization must be registered in Poland.
 - For enterprises it is strongly advised to state in the Pre-proposal application form the KRS number of the enterprise and the size of the enterprise (micro/small, medium, large).
 - A condition for the participation of a group of entities as the Applicant in the competition is its formal existence on the date of submission of the pre-proposal, confirmed by its members concluding, at least conditionally, agreement on the creation of a group of entities. Please note that group of entities counts as two project partners from Poland (it meets the limit on the number of participants from the same country, please see call text for details).

Funding quota of Polish participants can be up to 100% for universities or research organisations. In the case of enterprises, funding quota will be decided on a case-by-case basis depending on the size of the company, type of research/development, risk associated with the research activities and commercial perspective of exploitation, under the Regulation of the Minister of Science and Higher Education of 25 February 2015 on criteria and rules on granting state aid and “de minimis” aid by the National Centre for Research and Development, published in Journal of Laws item 299, 2015.

	Large Enterprises	Medium Enterprises	Small Enterprises	Universities and research organizations

Funding Organisation	Contact Person	Eligible Institutions	Eligible Costs	Anticipated Amount of Funding for This Call	Anticipated no. of funded research projects	Max./Min. funding awarded to a partner
Slovak Academy of Sciences (SAS)	Katarina Bibova Tel. +421 257 510136 E-mail: bibova@up.upsav.sk	<p>Only research Institutes of Slovak Academy of Sciences are eligible organisations for funding (up to 100%). Applicants from other Slovak R&D centres (universities and/or other organisations from Slovakia) have to cover the project costs from their own sources (Letter of Commitment). In addition to this, the teams outside of SAS can be consortium members but not the coordinator of the consortium. The principal Investigator of the Slovak partner's research team must have an employment contract with the Slovak partner lasting until the end of the granted project or beyond.</p> <p>Funding of projects is regulated by the SAS Financial Rules for awarding grants for research projects (https://www.sav.sk/index.php?lang=sk&doc=internet-messages&news_no=7569) approved by the SAS Presidium on 1 July 2018.</p> <p>The participation of the young scientists (Early Career Scientists) is strongly recommended. The Early Career Scientist must have been awarded his/her first doctoral</p>	<p>1. <u>Eligible direct costs</u> 1.1. <u>Personnel costs</u> - must accurately reflect the work on the project - may be used only to cover the costs (including health and social insurance) related to work agreements performed outside of employment - maximum of 15 % of all direct costs (ERA.Nets) or - maximum of 30% of all direct costs, if Slovak team is a coordinator of consortium (ERA.Nets) 1.2. <u>Material costs and expenditures</u> a. Consumables: minor equipment and instruments, small-scale office and laboratory material (no basic equipment of the</p>	€120.000	1	Max. funding is €120.000 to a partner

		<p>degree at least 3 and up to 10 years prior to the pre-proposal submission deadline of the 2020 Joint Call.</p> <p>Submission of the proposal at the national level will be required once the international evaluation has taken place and the ranking list has been endorsed by the Joint Call Steering Committee (CSC).The Slovak partner will be informed about recommendation for funding by the project consortium coordinator and invited by SAS to submit the national proposal form (MVTs form). Final approval of funding of selected projects lies with the SAS Presidium</p>	<p>workplace; essential computer equipment is exception)</p> <p>b. Costs and expenditures for services directly related to the project: subcontracts, consultations, publication of project results, conference fees</p> <p>c. Travel costs and living expenses: limits for travel costs and daily subsistence allowance vary depending on destination country (pursuant to Slovak Act. 283/2002 Col. Of Laws on travel reimbursement)</p> <p>d. Capital expenditures: to a maximum of 40% of all direct costs².</p> <p><u>2. Eligible indirect costs</u></p> <ul style="list-style-type: none"> - administration, energy and infrastructure - maximum of 20% of all direct costs

SPAIN (ISCIII)

Please note that country specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding Organisation	Contact Person	Eligible Institutions	Eligible Costs	Eligibility of PI and team members	Anticipated Amount of Funding for This Call	Anticipated no. of funded research projects	Max./Min. funding awarded to a partner
National Institute of Health Carlos III, (ISCIII, Spain), www.isciii.es	Maria Druet email: mdruet@isciii.es Tel: (+34) 91 822 2530	<ul style="list-style-type: none"> Hospitals, primary health care or public health administration of the Spanish National Health System (SNS) These institutions may manage research via a foundation regulated in accordance to the Spanish Act 50/2002, of December 26th (a copy of the foundation's statutes may be submitted). Accredited Health Research Institutes (Institutos de Investigación Sanitaria acreditados, IIS) Accredited according to the RD 339/2004, of February 27th or RD 279/2016 (These institutions may manage research via a foundation regulated according to the Spanish Act 50/ 2002, of December 26th) http://www.eng.isciii.es/ISCIII/es/contenidos/fd-investigacion/fd-institutos-investigacion-sanitaria/listado-de-iis-acreditados.shtml CIBER or CIBERNED. Team 	<ul style="list-style-type: none"> Personnel costs for temporary employment contracts (scholarships are not eligible). Current costs, small scientific equipment, disposable materials, travelling expenses and other costs that can be justified as necessary to carry out the proposed activities. Overheads, according to AES 2020. 	<ul style="list-style-type: none"> Principal Investigators (PI) can only participate in one project proposal per call. The Principal Investigator (PI) and all members of the research group must belong to the eligible institution or be affiliated to CIBER, CIBERNED or an IIS. <p>Excluded personnel as Principal Investigator (PI):</p> <ul style="list-style-type: none"> Those undergoing a postgraduate training in Health Specialization (MIR, FIR, QIR, BIR, 	400.000€	2-3	<p>Maximum funding per awarded Spanish project partner</p> <ul style="list-style-type: none"> Up to 175,000 € per partner (overheads included) Up to 250,000 € per coordinator ((overheads included)

	<p>members applying to the call must be from at least two groups belonging to CIBER in two different home institutions and one of these two should be a Hospital, primary health care or public health administration of the Spanish National Health System (SNS) or Accredited Health Research Institutes (Institutos de Investigación Sanitaria acreditados, IIS).</p> <p>•Academia or Other Research Centers. These entities can only participate if they apply together with Hospitals, primary health care or public health settings of the Spanish National Health System (SNS), or Accredited Health Research Institutes (Institutos de Investigación Sanitaria acreditados, IIS) in the same proposal. It is not allowed to apply independently, thus there must be two beneficiary Spanish institutions requesting funding to ISCIII in the same proposal.</p> <p>PLEASE NOTE:</p> <p>I. Applicants from ISCIII are eligible. Eligibility criteria from AESI 2020 apply.</p> <p>II. Durations of national grants are up to 3 years.</p> <p>III. Same institution cannot participate with more than one partner in the same project proposal.</p> <p>IV. Only one PI per beneficiary institution may be funded within the same proposal.</p> <p>V. There is no other incompatibility with AES 2020.</p>		<p>PIR).</p> <ul style="list-style-type: none"> •Those undergoing research training (e.g. PhD students, or “Río Hortega” contracts). • Researchers contracted by a RETIC or a CONSOLIDER. • Those undergoing postdoctoral training (e.g. “Sara Borrell” or “Juan de la Cierva” contracts). 			
--	---	--	---	--	--	--

<p>Requirements on data and repositories</p>	<p>Researchers funded by ISCIII must make public the human genomic data, as well as relevant data (phenotype and exposition data) generated inside the funded project and will use open access repositories. Researchers must also make public all the necessary information for the interpretation of these genomic data, including lab protocols, data instruments survey tools. Regarding genomic data it is understood: association of complete genomes (GWAS), matrixes of de polymorphism of a single nucleotide (SNP) and sequence of genome, and transcriptomic, metagenomic, epigenomic and gene expression data. The researchers whose projects are funded by ISCIII are recommended to store their scientific data at the "ELIXIR Core Data Resources" or if non-European repositories or data bases they must be certified by ELIXIR or the US National Center for Biotechnology Information (NCBI).</p> <ul style="list-style-type: none"> • ISCIII may no fund project that requires the construction of new repositories without decommissioning plans or ensured sustainability after the project´s end.
<p>National phase</p>	<ul style="list-style-type: none"> • National applications will be required by ISCIII. Spanish Applicants should periodically check in the web page of ISCIII if they are qualified. ISCIII may not send invitations to the mandatory national phase. • Double funding of the same concept is not allowed. <p>Due to administrative and legal regulations, the National Institute of Health Carlos III declares the end of September 2020 as national deadline for the decision on fundable project consortia which include Spanish partners to be funded by ISCIII. Any concerned applicant in a proposal for which no final decision has been made by the deadline, could be declared not fundable by ISCIII.</p>

AEI, Spain

Please note that country specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding Organisation	Agencia Estatal de Investigación (AEI - State Research Agency), Spain
Funding program	<p>The instrument for funding the Spanish groups will be the national call on RDI Projects International Joint Programming (<i>Proyectos I+D+I Programación Conjunta Internacional</i>) or equivalent, under the Programa Estatal de I+D+i Orientada a los Retos de la Sociedad, Plan Estatal de Investigación Científica y Técnica y de Innovación 2017-2020.</p> <p>The Spanish legal entities granted are obliged by the regulations established in this PCI call and by the funding limit specified below.</p> <p>Call will be managed by the Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y Excelencia.</p>
Funding objective	The projects granted by the State Research Agency must be aligned with the main objectives described in the <i>Programa Estatal</i> . Link to Plan Estatal
Anticipated amount of funding for this call	Maximum funding for the NEURON JTC 2020: 600.000 €
Anticipated no. of funded research projects	~4
Contact person	<p>Ana Barra (Administrative and technical issues) Telephone: (+34) 916038398 Contact e-mail: neuron@aei.gob.es Representative: Dr Esther Chacón</p>

<p>Eligible Institutions</p>	<p>The eligible entities for AEI funding are not-profit research organisations according to the PCI call 2020 (<i>Acciones de programación conjunta internacional 2020</i>).</p> <p>AEI may exchange applicant(s) with the <i>Instituto de Salud Carlos III (ISCIII)</i> in order to maximize the available funds, provided the respective eligibility rules are met.</p> <p>Although private enterprises will not be funded through the PCI Call, the Spanish industrial sector is welcome to participate in the transnational consortia using their own funds.</p> <p>Final rules on eligibility will be defined in the PCI 2020 (or its equivalent), to be published here</p>
<p>Eligible PIs</p>	<p><u>Mandatory:</u> Spanish Principal Investigators must be eligible according to the <i>PCI 2020</i> (or its equivalent) and must have experience as investigators in projects funded by the <i>Plan Nacional I+D+i 2008-2011</i>, the <i>Plan Estatal I+D+i 2017-2020</i>, ERC Grants, European Framework Programmes or other relevant international programmes.</p> <p><u>Incompatibilities:</u> These must be taken into account when participating in different ERA-Nets or other international initiatives.</p> <ul style="list-style-type: none"> - Principal Investigators are not allowed to apply for funding in more than one proposal of this ERA-NET NEURON call. - Principal Investigators will not be allowed to apply for funding in more than one proposal in the same PCI call or in two PCI calls in consecutive years. - Principal Investigators must remain unchanged between the proposal to this transnational call and the PCI 2020 call. <p>The State Research Agency will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded.</p>
<p>Eligible Costs</p>	<p><u>Eligible Costs:</u></p> <ul style="list-style-type: none"> - Personnel costs for temporary employment contracts (scholarships are not eligible). - Current costs, small scientific equipment, disposable materials, travelling expenses and other costs that can be justified as necessary to carry out the proposed activities. <p><u>Ineligible Costs:</u></p> <ul style="list-style-type: none"> - Indirect costs (overheads) or clinical trials (proofs of concept, proofs of principle) are not eligible for funding in the PCI call.
<p>Maximum requested per project</p>	<p>The following funding limits are considered eligibility criteria by State Research Agency. Proposals not respecting these limits can be declared ineligible.</p> <p>The maximum amount of funding is 150,000 € per proposal and legal entity (additional 50,000 € if the Spanish group leader is the</p>

	<p>coordinator of the international consortium). Only one legal entity (eligible for funding by AEI) is allowed to apply in each proposal.</p> <p>Centres formed by different Spanish legal entities will be considered as one unique entity, and thus the maximum funding should not exceed 150,000 € per proposal (for example, mixed centres).</p> <p>The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector and the financial resources available.</p>
Mandatory acknowledge	<p>Mandatory acknowledgment: Any publication or dissemination activity resulting from the granted projects must acknowledge State Research Agency funding: "Project (reference nº XX) funded by Spanish State Research Agency through PCI 2020".</p>

Switzerland
