**RE: APPROVED LABS FOR TESTING COVID19 IN KENYA**

This is to remind you that the following 44 labs have been approved to test for COVID19 and issue PCR results/ certificates and TT codes.

A person intending to travel outside Kenya is expected to take COVID19 test from the approved labs. These labs shall be reviewed from time to time by the Ministry of Health.

The purpose of this letter therefore, is to inform you that any traveller with PCR results coming from non-approved lab shall NOT be allowed to travel through JKIA.

Secondly, on the certificates, they will find a Trusted Testing code (TT) which shows that the test was done in a trusted Lab. This follows the Directive from the Cabinet Secretary for Health.

Thanks for your cooperation in fighting COVID-19.

  
Benjamin Murkomen.  
PORT HEALTH OFFICER IN CHARGE
