Subcomponent 1.B: Flood Protection on the Middle and Lower Odra River  
Task 1B.3: Construction of Mooring Facilities

This questionnaire is anonymous – please complete it without stating your personal data

1. What do you think of the reasons for the Investment Project?

Unfounded. We only need a beltway, not a new bridge, especially since there are two more railway bridges of the same height in the same section of the Warta River, so the ice floe will block.

2. How will the investment project affect your economic position (revenue)?

Bad (communication problems, exit, etc.) My husband may have a problem commuting, and my son may have a problem commuting to school.

3. What do you think of the strengthening of flood protection?

Wrong, the investment will irrevocably ruin green areas.

I do not support!

We have Warta Mouth National Park near. The investment will adversely affect the entire ecosystem.

Task 1B.3: Construction of Mooring Facilities

This questionnaire is anonymous – please complete it without stating your personal data

1. What do you think of the reasons for the Investment Project?

Negative, because in front of the road bridge there are two railway bridges with a similar height from the Warta River. With more water, the icebreaker will not reach.

2. How will the investment project affect your economic position (revenue)?

Will not

4. What do you think of the strengthening of flood protection?

Negative.
