### Register your organisation

To register your organisation or as a natural person, you need to login into the Portal or, if you are a new user, create your account.

Check what information you need to register in the Online Manual - and keep it to hand during the registration procedure. To start registration, click on the button below.

Register your organisation

You can suspend the registration process at any time: the data entered can be saved as draft and you can continue your registration later. To return to your registration, please log in and get into My Organisation(s) in the My Area section. Incomplete, draft registrations are automatically deleted after one year.

Additionally, for actions where the SME status is an eligibility criterion (like, e.g. the SME Instrument) you must also carry out the SME self-assessment.

Should your project or tender be successfully evaluated, the registered data will be verified by the Validation Service team before the signature of the Grant Agreement or of the Framework Contract.

**Terms and Conditions for the Submission of Applications**

Please read and accept this disclaimer to proceed with the creation of your draft proposal:

**Proposal data**

**1. Confidentiality:** Applications (and any additional information provided for the award) will be considered confidential and treated according to the same principles as those set out in the grant agreement. We may in particular have to share applications with other EU institutions and bodies in order to perform the pre-award checks required by the EU Financial Regulation. Please also be aware that we may have to publish the information contained in the Abstract/Short Summary in Part A. Please avoid adding any confidential information in that section.

**2. Access to pre-registration data:** Please be aware that certain information from the draft proposals will be accessed by us before the call deadline, in order to plan the evaluation. This concerns call ID, topic ID, type of action ID, participant identification code (PIC), project acronym, abstract, panel and keywords.

I agree that the pre-registration data becomes available to the European Commission services prior to call closure.

I wish that the pre-registration data does not become available to the European Commission services prior to call closure. (Applicants are advised to use this option only in well justified cases, as it hinders the planning of the evaluation process and the timely processing of proposals).

**Technical requirements**

**3. Part B file format:** Part B of the Application Form (Technical Description) must be uploaded as PDF (equivalent to Adobe Acrobat v5 or higher, with embedded fonts).

**4. Part B page limits:** Applications are subject to the page limits set out in the call conditions. Excess pages will be made invisible and not available to the evaluators. Mandatory annexes and supporting documents do not count towards the page limit.

**5. Time constraints:** Preparation and uploading of the files in the Submission System may take some time. Don't wait until the end. Problems due to last minute submissions (e.g. congestion, etc) will be entirely at your risk.

**Submission**

6. Applications must be submitted before the call deadline. You can withdraw your application or make changes to it, provided this is done before the call deadline. Submission of a new application overwrites the previous version.

#### How to fill in the forms

The forms must be filled in for each proposal using the templates available in the submission system. Some data fields in the forms are pre-filled based on the steps in the submission wizard.

Read more

2

1

#### Read-only information

The list of participants and contact persons, the Participant Identification Code (PIC) and the respective summary data of the participants (shown in blue in the form) are read-only fields. To modify the list of participants or contact persons, please go back to Step 4. To modify the legal data of the organisation, changes have to be requested via the Organisation Registry by the authorized persons. Read more about the [modification of the organisation data](#).

#### Who can fill in the forms?

'Coordinator contacts' and Participant contacts', who must be identified at Step 4 of the submission wizard. The 'coordinator contact(s)' can edit any parts of the administrative form, 'Participant contacts' can only edit the respective section of the organisation in section 2, including the contact persons' data.

#### Guidance in the form

If you click on the question marks in blue, you can read more information about the question or section. In order to print this guidance, the blue question marks must be open.

Each box of the form contains a short guidance on the format, the length and the expected level of information. Once you click on the text or start editing the information, it disappears automatically from the box.

#### Navigation in the form

To view the different sections in the form, you may either use the scroll bar or the blue "Show" buttons as seen in the Table of contents.

#### Validation

The system offers some automatic checks and gives warning messages in case mandatory fields are not completed. Please click on the "Validate" button to check your data. Errors and warnings will be listed at the end of the form. Errors mean that mandatory information is missing (such as the Proposal Title) and the proposal cannot be submitted until these are resolved. Warning messages do not block submission, but indicate missing information that may be important for the proposal and you should ideally also be cleared. By clicking on the "Show" button, you can easily get back to the field with an error, highlighted in yellow with the other fields with warnings highlighted in red.

#### Saving of the data

Before closing the form, click on the button "Save and Close". The save function works even if the form is not completely filled in. This will take you back to Step 5, where you can upload the Technical Annex and any additional documents.

You may return to edit the form as many times as you wish prior to call closure. Any changes saved on the form need to be resubmitted in order to be received by the European Commission and considered for evaluation
