

Nuclear power plant in the Pomeranian Voivodship. Information on proceedings to issue a decision on environmental conditions

The General Director for Environmental Protection is conducting proceedings to issue a decision on environmental conditions for the project involving **the construction and operation of Poland's first Nuclear Power Plant with an electrical output of up to 3750 MWe, in the area of the municipalities of Choczewo or Gniewino and Krokowa, Pomorskie Voivodship.**

Course of proceedings

The proceedings to issue a decision on environmental conditions were initiated on 5 August 2015 at the request of Polskie Elektrownie Jądrowe Sp. z o.o. (former name PGE EJ 1 Sp. z .o.o.). In a decision dated 25 May 2016 the General Director for Environmental Protection defined the scope of the environmental impact assessment report for the project and then, in a decision of 4 June 2016, suspended the proceedings until the applicant will submit the environmental impact assessment report.

Polskie Elektrownie Jądrowe Sp. z o.o. on 29 March 2022 submitted an environmental impact assessment report of the project to the General Director for Environmental Protection, after which the General Director for Environmental Protection initiated the proceedings by decision of 6 June 2022.

Positions of authorities cooperating prior to the issuance of the decision on environmental conditions

The General Director for Environmental Protection, before issuing a decision, by letters dated 25 July 2022, requested the Director of the Maritime Office in Gdynia, the Pomeranian Voivodship Sanitary Inspector and the Director of the Regional Water Management Board in Gdańsk of the National Water Management Authority Wody Polskie to take a position, in accordance with Article 74(3) of the Act of 3 October 2008 on sharing information on the environment and its protection, public participation in environmental protection, and on environmental impact assessments.

The Director of the Maritime Office in Gdynia by his decision of 13 February 2023 agreed with the conditions for the implementation of the project, and the Pomeranian Voivodship Sanitary Inspector in the opinion dated 19 August 2022 gave no comments on the said project.

Procedure on transboundary environmental impact assessment

By letter dated 16 September 2022, the General Director for Environmental Protection, within the framework of transboundary consultations, in accordance with Articles 4 and 5 of the Convention on Environmental Impact Assessment in a Transboundary Context (Espoo Convention), forwarded the environmental impact assessment report of the project to the affected countries. The purpose of the transboundary environmental impact assessment procedure is to give the countries on whose territory the planned project may have an impact the opportunity to present comments, including public consultations in accordance with the legislation in force in the country concerned. The aim is to maintain transparency in the implementation of projects likely to have a significant impact on the environment and to make informed decisions on the conditions for the implementation of such projects also taking into account considerations beyond national borders.

By 9 May 2023, the substantive clarification phase of the transboundary consultation had been successfully completed with seven countries: Czech Republic, Finland, Estonia, the Netherlands, Latvia, Germany and Hungary. Substantive clarifications with the remaining countries are in progress.

Public participation in proceedings

Before issuing a decision on environmental conditions, the General Director for Environmental Protection shall provide the opportunity for public participation in the proceedings, in accordance with the provisions of Chapter III 'Public Participation in Environmental Protection' of the Act of 3 October 2008 on sharing information on the environment and its protection, public participation in environmental protection, and on environmental impact assessments. Information on public participation will be provided at a later date, of which the citizens will be informed by a separate notice.

Environmental Impact Assessment Report

Presently, the public has the opportunity to read the request for a decision and the environmental impact assessment report, available at the following links:
