RE: Decision on environmental conditions dated 11/30/2015, ref. no.: ST-I.4210.1.2015.BM, for the Works Contract including Construction of the right embankment of the Biala River in the City of Tarnów at local chainage of km 0+000 – 0+695, according to option "2".

In reference to the note dated 04/14/2017, ref. no.: BTT-310/MJ/2017, containing a question related to replacement planting, the Site Issues Department in Tarnów of the Regional Directorate for Environmental Protection in Cracow provides the following clarifications, while referring to provisions of the decision of the Regional Director for Environmental Protection in Cracow dated 11/30/2016, ref. no.: ST-I.4210.1.2015.BM, on environmental conditions for the Works Contract comprising Construction of the right embankment of the Biala River in the City of Tarnów at local chainage of km 0+000 – 0+695.

The condition included in the aforementioned decision refers to the necessary designing of replacement planting, and provisions included in characteristics for the planned Works Contract allow for including (through precise indication) – in case of documentation required for the issuance of decisions discussed under Article 72 (1) of the Act of October 3, 2008 on providing information on the environment and its protection, public participation in the environmental protection, and on environmental impact assessments (OJ of 2016, item 353, as amended) – species of trees only and their number, which would correspond with native species and with quantities of trees to be logged, without indication of their precise location.

Those provisions allow for determining the location of planting on the stage of undertaking the construction works by the Contractor. The planting shall be done as close to the Contract site as possible, within plots owned by the Municipality of Tarnów and/or the Commune of Tarnów.

pp. Regional Director
for Environmental Protection in Cracow

Eng. Paweł Koziół MSc
Manager of Site Issues Department in Tarnów
