Justification

By the letter dated 14 January 2020, ref.: POPDOW-ZPT.071.1.2020, supplemented with the letter of 28 January 2020, Ms. Krystyna Araszkiwicz, acting under the power of attorney granted by the acting Director of the Regional Water Management Board in Szczecin of the Wody Polskie State Water Management Authority applied to the Marshal of the Zachodniopomorskie Province for a permit to derogate from the ban on flushing prey animals of the following species: mallard (*Anas platyrhynchos*), and wood pigeon (*Columba palumbus*).

In accordance with art. 9a (1) of the Hunting Law, having consulted the Polish Hunting Association, the marshal of the province may allow derogation from the ban on flushing of prey animals. The permit may be issued in the absence of alternative solutions and if it is not detrimental to the conservation of prey animal populations.

The application submitted by the Regional Water Management Board in Szczecin of the Wody Polskie State Water Management Authority for the Marshal's permission to derogate from the ban on flushing prey animals, concerns the following species: mallard (*Anas platyrhynchos*), and wood pigeon (*Columba palumbus*), and the planned flushing activities do not threaten the sustainability of the population of these animals.

By letter of 14 February 2020, No. 146/02/2020, the Polish Hunting Association raised no objections to that application.

Considering the above, the decision was made as stated above.
