III. Qualifications, experience and personal characteristics of the participant

The description below should give a picture of your expertise and motivation. It should be concise but exhaustive enough to let the evaluators assess your fit for the workshop. The approximate number of characters is indicated for each question.

a) Your qualifications: please provide a brief summary of qualifications focusing on those relevant to this Idealab. Include your scientific experience, as well as non-scientific expertise and competencies, involvement in international cooperation, cooperation with governmental and non-governmental organisations, participation in collaboration between science and society, and any other relevant skills or experience. (max. 1500 characters, including spaces)

b) Please describe how your interest and expertise could contribute to the topic of this multidisciplinary IdeaLab. (max. 1500 characters, including spaces)

c) How would you describe your ability to explain your research to non-experts? (max. 1000 characters, including spaces)

d) What is your approach to team-working, particularly in interdisciplinary and international teams? (max. 1000 characters, including spaces)

e) The IdeaLab will be especially suited to individuals who: enjoy stepping outside their area of expertise or interest, are positively driven, enjoy creative activity and can think innovatively. The IdeaLab is an intensive setting requiring you to develop novel approaches with individuals you may not know. How well do you see yourself fitting in? Please explain and provide relevant examples. (max. 1000 characters including spaces)

f) What do you hope to gain from participating in this IdeaLab, personally and professionally? (max. 1000 characters including spaces)
