Education, Science and
Technology
Development**

**Minister of Digital
Transformation of
Ukraine**

**Ms Valeriya Ionan
Deputy Minister of
Digital Transformation
for European Integration**

**Ministry of Digital
Transformation of
Ukraine**

Your Excellencies,

I would like to express my deepest appreciation for your involvement in order to find satisfactory solutions, both for Poland and Ukraine, regarding the replanning of TV stations operating in 700 MHz band in areas neighbouring with Poland. I am pleased to inform you that Poland finds the proposed means as a satisfactory temporary solution enabling us to fulfil our obligations regarding broadband communications policies.

According to the arrangements made during the meeting on October 30th 2024 we expect that once the necessary equipment and funds are secured the task will be accomplished up to 12 weeks, possibly in the beginning of next year. The arrangements take into account the stations that has significant impact on Polish territory:

No	Station location	Current TVC	Power	Planned TVC
1.	Pidbuzh	50 TVC	200 W	21 TVC
2.	Pidbuzh	51 TVC	200 W	44 TVC
3.	Brody	50 TVC	100 W	22 TVC
4.	Horokhiv	52 TVC	200 W	29 TVC

5.	Kovel	52 TVC	1000 W	22 TVC
6.	Liubeshiv	62 TVC	100 W	22 TVC

I hope that this temporary solution, according to the estimated simulations, will reduce interference in Poland by at least 60% and at the same time will not create obstacles to the uninterrupted functioning of digital terrestrial television in Ukraine.

We are pleased to see this as a first significant step towards reducing interference and releasing the 700 MHz band in border areas and a pilot initiative to release the 700 MHz band from DTT in Ukraine on a wider scale.

I would be grateful if you could confirm the above mentioned arrangements and provide any additional information if necessary. If you require any more information or assistance I remain at your disposal through the already established communication channels.

Yours sincerely,

Krzysztof Gawkowski
