

Dear Student!

We are happy for you to choose studying in Poland.

In the passport you can find your visa that indicates your purpose of entering Poland is to study.

The visa is issued only for the initial period of your stay in Poland.

The next step is to legalize your stay!

You must submit the documents in the Voivodeship Office where you reside, as soon as possible after entering Poland.

Residence card will allow you to stay in Poland during your studies and will enable you to travel freely without applying for a new visa.

Information about how to apply and what documents to submit can be accessed in English on the website of the Foreigners' Office:
