

Lista rankingowa wniosków nierekomendowanych do dofinansowania

Program/nr konkursu: Small Grant Scheme, Program “Badania stosowane” Ścieżka / obszar: n/d Data rozpoczęcia i zakończenia naboru wniosków: 28.09-11.12.2020 r.					
Lp.	Nr wniosku lub akronim	Wnioskodawca	Tytuł projektu	Ocena końcowa	Status wniosku
1	HybridSAR4Mining	Uniwersytet Przyrodniczy we Wrocławiu	Fusion of multisensor and multitechnique SAR measurements to determine 3D deformation field caused by underground exploitation.	22	nierekomendowany do dofinansowania
1	GEOID-POL	Instytut Geodezji i Kartografii	Developing a highly accurate quasigeoid model required for the definition of a new vertical reference frame for Poland	22	nierekomendowany do dofinansowania
1	Trajectories	Warsaw University of Technology	Determination of aircraft flight mapping models in order to optimize the trajectory for the new organization of aircraft traffic	22	nierekomendowany do dofinansowania
1	SubpixRes	AGH University of Science and Technology	Development of X-ray detector of subpixel resolution.	22	nierekomendowany do dofinansowania
1	MODOIL	Łukasiewicz Research Network - Institute for Engineering of Polymer Materials and Dyes	New products based on renewable raw materials, including vegetable oils, as components of polymer materials and organic coatings	22	nierekomendowany do dofinansowania
2	COLLAYER	Wrocław University of Science and Technology	Novel collagen-based inks for 3D printing of personalized ECM-mimicking anisotropic wound dressings	22	nierekomendowany do dofinansowania
2	PEEK-BIO-3D	Jerzy Haber Institute of Catalysis and Surface Chemistry Polish Academy of Sciences	Modification of PEEK 3D printed scaffolds for biointegration enhancement	22	nierekomendowany do dofinansowania
2	COgData	Uniwersytet Pedagogiczny im. Komisji Edukacji Narodowej w Krakowie	Machine learning methods application for modelling cognitive processes based on eye tracking data	22	nierekomendowany do dofinansowania
2	GRANPAVE	Instytut Podstawowych Problemów Techniki PAN	Effect of de-icing agents based on chlorides and formates on the alkali-silica potential in	22	nierekomendowany do dofinansowania

			concrete pavement containing aggregate from plutonic rocks		
2	PK-photo-RAFT	Cracow University of Technology	Design, synthesis and investigation of metal-free organic photocatalysts and photoinitiaters for photoinduced reversible addition-fragmentation chain transfer processes (photo-RAFT) under visible and NIR light	22	nierekomendowany do dofinansowania
2	EOSL	Jan Dlugosz University in Czestochowa	Optically stimulated luminescence (OSL) reader "Eos" - a portable device for passive dosimetry	22	nierekomendowany do dofinansowania
12	FiberTech	Wroclaw University of Science and Technology	Development of fabrication technologies of fiber optic components for lasers and amplifiers	22	nierekomendowany do dofinansowania
12	AgroBioFuel	Politechnika Opolska	Development of novel agro biomass-based fuels for small scale boilers with support of computational intelligence	22	nierekomendowany do dofinansowania
14	RC-CRACK	Silesian University of Technology	Development of technology towards tight reinforced concrete containments for hazardous liquids and radioactive materials	21,5	nierekomendowany do dofinansowania
14	LSGS	Jagiellonian University	Intraoperative real-time brain tumor imaging with application of Laser Speckle Contrast Imaging	21,5	nierekomendowany do dofinansowania
14	BIOPEEK	Iganacy Lukasiewicz Rzeszow University of Technology	Innovative PEEK-based bone implant material with enhanced biocompatibility generated via eco-friendly metal-free ATRP approach	21,5	nierekomendowany do dofinansowania
14	ShellUFG	Warsaw University of Technology	Incremental Forming of Ultrafine Grained Aluminum Sheets	21,5	nierekomendowany do dofinansowania
14	HybMat	Uniwersytet im. Adama Mickiewicza w Poznaniu/Adam Mickiewicz University, Poznań	Novel hybrid materials for controlled release of active compounds - technology development	21,5	nierekomendowany do dofinansowania
14	WasteCarb	Wrocław University of Science and Technology	Development and application of a multifunctional carbon adsorbent from organo-mineral wastes	21,5	nierekomendowany do dofinansowania
14	SSCANNOC	Politechnika Lubelska	Superhydrophobic self-cleaning architectural concrete modified with nanocellulose, gas nanobubbles and organosilicon compounds	21,5	nierekomendowany do dofinansowania

14	Multi-AFM	AGH University of Science and Technology	Multilevel magnetic memory based on antiferromagnets	21,5	nierekomendowany do dofinansowania
14	AMSL	Gdańsk University of Technology	AI for managing sustainable land use and shaping mobility patterns	21,5	nierekomendowany do dofinansowania
14	GRID-Wall	Silesian University of Technology	An innovative approach to improve the shear parameters of AAC masonry walls using non-structural materials	21,5	nierekomendowany do dofinansowania
24	BioPOPLift	Politechnika Krakowska im. Tadeusza Kościuszki	BioPOPLift - innovative scaffolds with advanced properties for pelvic organ prolapse (POP) treatment	21,5	nierekomendowany do dofinansowania
25	DirectCare	Nalecz Institute of Biocybernetics and Biomedical Engineering Polish Academy of Sciences	Direct-printed biosensor for glutamate detection	21,5	nierekomendowany do dofinansowania
26	ENABLER	Nicolaus Copernicus University in Toruń	Novel low-cost diagnostic tool enabling ophthalmic imaging of opacified eyes	21	nierekomendowany do dofinansowania
26	MODERN	Sieć Badawcza Łukasiewicz - Instytut Lotnictwa	MethOds of Design, optimization, and wind tunnEl testing of an aeRoelastic wiNg	21	nierekomendowany do dofinansowania
28	POLPREVSLURRIES	AGH University of Science and Technology	Pollution prevention: New cement slurries for improving wellbore integrity in gas well, especially in aggressive condition.	21	nierekomendowany do dofinansowania
29	EnviroEmo	Wroclaw University of Science and Technology	Method of indoor environment monitoring in view of remote workers emotional states	21	nierekomendowany do dofinansowania
29	aGROTor	Instytut Chemicznej Przeróbki Węgla	Thermochemical valorization of agriculture biomass to their application as energy source in domestic heating systems	21	nierekomendowany do dofinansowania
29	RoboMusicTutor	Instytut Badań Systemowych PAN	A Prototype Robot-Assistant to Practice Musical Instruments	21	nierekomendowany do dofinansowania
29	MICROCOSM	Warsaw University of Technology	Development of microbiological technology for the production of innovative cosmetic raw materials	21	nierekomendowany do dofinansowania
29	HexaPer	Gdańsk University of Technology	Hexagonal perovskites - the structure and mixed conductivity in doped A4B2O9 oxides	21	nierekomendowany do dofinansowania
34	NatFibersBiocomposit	Kazimierz Wielki University	Natural fibers reinforced biocomposites modified by biocidal agents	21	nierekomendowany do dofinansowania

34	Perfect-GaN	Instytut Wysokich Ciśnień Polskiej Akademii Nauk	Ammonothermally-grown Gallium Nitride: on the Way to Structurally Perfect Bulk Crystals	21	nierekomendowany do dofinansowania
34	ZIRCONI	Łukasiewicz Research Network - Institute of Non-Ferrous Metals	Research on the production of an innovative composite material with zirconium dioxide recycled from waste from the coating sputtering process	21	nierekomendowany do dofinansowania
37	AirSafetySim	Warsaw University of Technology	Simulation method for analysing the safety of airport traffic	20,5	nierekomendowany do dofinansowania
38	COFFECLIMATE	Częstochowa University of Technology	Innovative technology for the production of adsorbents from spent coffee grounds for climate and environmental protection	20,5	nierekomendowany do dofinansowania
39	FFSaRM	Instytut Badawczy Dróg i Mostów / Road and Bridge Research Institute	Fitness for Service and Risk Management for Railway Bridges Using Reliability Approach	20,5	nierekomendowany do dofinansowania
39	WIRESTONE	Łukasiewicz Research Network - Krakow Institute of Technology	Development of a technology for the production of innovative metal-diamond beads for wire saws used for cutting difficult-to-machine materials.	20,5	nierekomendowany do dofinansowania
39	ChIoSS	Wrocław University of Science and Technology	Chloride Soft Sensor for low-cost continuous monitoring of water pollution	20,5	nierekomendowany do dofinansowania
39	AgroMOFmat	Instytut Niskich Temperatur i Badań Strukturalnych im. W. Trzebiatowskiego Polskiej Akademii Nauk	Innovative fertilizers based on glass@MOF nanocomposites	20,5	nierekomendowany do dofinansowania
39	ULI-HAX	Akademia Górnictwo-Hutnicza im Stanisława Staszica w Krakowie	Ultrasonic wavefield imaging using laser interferometry for hollow axle contactless inspection.	20,5	nierekomendowany do dofinansowania
39	FireSafeEcoFoam	Kazimierz Wielki University	Modification of rigid polyurethane foams by waste products to reducing flammability and increasing susceptibility to biodegradation	20,5	nierekomendowany do dofinansowania
39	NEOGLADE	Politechnika Białostocka / Białystok University of Technology	Novel Dental Glass-ionomer Cement of Improved Mechanical and Tribological Properties	20,5	nierekomendowany do dofinansowania
39	DOSARA	The Henryk Niewodniczański Institute	Development of a novel, quick and simple method for dose assessment in radiation	20,5	nierekomendowany do dofinansowania

		of Nuclear Physics Polish Academy of Sciences	emergencies by measuring the luminescence of pharmaceuticals		
39	RFSSW-XRD	Sieć Badawcza Łukasiewicz - Instytut Lotnictwa	Refill friction stir spot welding joints fatigue life determination with diffraction methods and numerical modelling	20,5	nierekomendowany do dofinansowania
39	BIOBIKARB	Institute for Chemical Processing of Coal	Small-scale process for capture and utilization of fermentation CO ₂ by producing sodium bicarbonate in a novel gas inducing mixer	20,5	nierekomendowany do dofinansowania
39	MagEVS	THERANOSCOPE SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ	Development of a new method for measuring the concentration of extracellular vesicles based on spectroscopic methods for diagnostic applications	20,5	nierekomendowany do dofinansowania
39	TCOSPWTAB	Warsaw University of Technology	Temporary change of soil parameters with the application of biopolymers	20,5	nierekomendowany do dofinansowania
39	PASTE	Saule Spółka Akcyjna	Interface engineering for improved performance and stability of perovskite flexible solar modules	20,5	nierekomendowany do dofinansowania
52	ERES	Gdańsk University of Technology	Low-cost circularly polarized electronically steerable antennas for energy-efficient intelligent wireless systems	20,5	nierekomendowany do dofinansowania
52	DESDEMONA+	Gdansk University of Technology	DEtection and Synergistic DEgradation of forever Micropollutants On carbon NANOstructures	20,5	nierekomendowany do dofinansowania
52	IMAQIS	The Main School of Fire Service	Improvement system of indoor hygiene conditions in sports facilities based on monitoring of selected air quality indicators levels and origin	20,5	nierekomendowany do dofinansowania
52	ILCopper	Łukasiewicz Research Network - Institute of Non-Ferrous Metals	Innovative technology for preparation of copper and copper(I) oxide powders by electrolytic method using choline-chloride-based deep eutectic solvent electrolytes	20,5	nierekomendowany do dofinansowania
52	HYBWMA	Lublin University of Technology	New-generation hybrid materials as additives for the production of ecological asphalt mixtures.	20,5	nierekomendowany do dofinansowania
52	HEPolymers	Institute of High Pressure Physics of the Polish Academy of Sciences	Analysis of the effect of severe plastic deformations generated by high pressure cold	20,5	nierekomendowany do dofinansowania

			working on the microstructure and mechanical properties of polymers.		
52	UG-4-AQI	Gdańsk University of Technology	Urban greenery for air quality improvement - investigating the potential of near-road vegetation barriers in PM10 pollution control	20,5	nierekomendowany do dofinansowania
52	SiFraM_res	Cracow University of Technology	Simulation framework to maintain dammed reservoir functionality under the climate changes	20,5	nierekomendowany do dofinansowania
52	SotiEnergyDrink	SOTI NATURAL SPÓŁKA Z OGRANICZONĄ ODPOWIEDZIALNOŚCIĄ	Development of sugar free purple tea energy drink based on natural components with high level of polyphenols and caffeine	20,5	nierekomendowany do dofinansowania
52	recon-sar	Satim Monitoring Satelitarny Spółka z ograniczoną odpowiedzialnością	„Innovative method of ships' 3D models semi-reconstruction based on their satellite SAR signatures”	20,5	nierekomendowany do dofinansowania
62	DAH-OECT	Cardinal Stefan Wyszyński University in Warsaw	Donor-Acceptor type electroactive materials containing hydrophilic units for organic electrochemical transistor applications	20	nierekomendowany do dofinansowania
63	Plasmon-MoS2	Warsaw University of Technology	Novel plasmon-enhanced hybrid nanostructures based on molybdenum disulfide and carbon nanomaterials for photocatalytic energy conversion applications	20	nierekomendowany do dofinansowania
63	AMRTIEL	Poznan University of Technology	Autonomous mobile robot for testing the intensity of emergency lighting	20	nierekomendowany do dofinansowania
63	LUNATUB	Adam Mickiewicz University, Poznan	LumiNanoTube - laser coded nanomaterial as a unique luminous anti-counterfeit tag	20	nierekomendowany do dofinansowania
63	FOREST	Poznan University of Technology	Fog communication and computing networks for reliability, latency and cost-critical IoT	20	nierekomendowany do dofinansowania
63	CAMS	Gdynia Maritime University (Uniwersytet Morski w Gdyni)	Collision Avoidance Module for Ships	20	nierekomendowany do dofinansowania
63	ARIADNE	Politechnika Warszawska	Open access self-adjusting ARtificial Intelligence based Algorithm for inteferometric data analysis using Digital NEtwork of optical systems	20	nierekomendowany do dofinansowania

63	PHOTO-ORTHO-3D-VAT	Photo HiTech spółka z ograniczoną odpowiedzialnością	Light-induced Engineering Materials: rapid spatially controlled 3D multi-material printing process using orthogonal photochemistries with different chemicals and light wavelengths	20	nierekomendowany do dofinansowania
63	SimYouDrive	Instytut Transportu Samochodowego	Innovative simulation-driven training for human drivers of automated vehicles	20	nierekomendowany do dofinansowania
63	SurfCharacterization	Politechnika Opolska	Method for Intelligent Identification of Outliers in High-accuracy Characterization and Evaluation of Micro-structured Surfaces	20	nierekomendowany do dofinansowania
63	NanoConMater	Jerzy Haber Institute of Catalysis and Surface Chemistry Polish Academy of Sciences	Application of inks based on metallic nanoparticles for the fabrication of low-cost, flexible, conductive, printed patterns.	20	nierekomendowany do dofinansowania
63	BIO-MIC	Uniwersytet Warszawski	Experimental development of droplet-based approaches for studies of antibiotics and anti-infective agents within blood plasma.	20	nierekomendowany do dofinansowania
63	NanoPhage	University of Gdansk	Thermophilic bacteriophage TP-84 depolymerase: function in Geobacillus stearothermophilus infection, cloning, biochemical analysis, and biofilm degradation capacity.	20	nierekomendowany do dofinansowania
63	MODZINC	Łukasiewicz Research Network - Krakow Institute of Technology	Development of an innovative technology for modifying die-cast zinc alloys with increased strength parameters.	20	nierekomendowany do dofinansowania
63	Bio-Safe	Ranplast Sp.z.o.o	Bio-based polymer composites reinforced with natural waste particles with antibacterial properties	20	nierekomendowany do dofinansowania
63	Osteoprint	Łukasiewicz Research Network - Institute of Ceramics and Building Materials	3D printed composite scaffolds as drug carriers for local bone tissue therapy	20	nierekomendowany do dofinansowania
63	MercuryEverywhere	Politechnika Wrocławska	Models of mercury concentrations and transformations in the environment of an urban polluted agglomeration	20	nierekomendowany do dofinansowania
63	2Dprinter	Politechnika Warszawska	Two-dimensional material printing technology for industrial scale thin film fabrication	20	nierekomendowany do dofinansowania

63	SWUS	Politechnika Krakowska im. Tadeusza Kościuszki/Cracow University of Technology	Safe water in urban space	20	nierekomendowany do dofinansowania
63	PROMIS	Cracow University of Technology	The design and construction of two prototype micro-movement monolithic gripper mechanisms with piezoelectric drive and stepper motor with consideration to the clamping force on the microelement by the jaws	20	nierekomendowany do dofinansowania
63	BBTinAP	Institute of Environmental Engineering Polish Academy of Sciences	Contribution of substances emitted during biomass burning in total air pollution.	20	nierekomendowany do dofinansowania
63	GoSensor	Instytut Agrofizyki im. Bohdana Dobrzańskiego Polskiej Akademii Nauk	Innovative continuous on-the-go soil moisture measurement method with the use of a new dielectric sensor	20	nierekomendowany do dofinansowania
63	ASHRDF	Czestochowa University of Technology	Utilization of a new type of combustion by-products	20	nierekomendowany do dofinansowania
85	CoatPathEliminate	Institute of Metallurgy and Materials Science, Polish Academy of Sciences	Antipathogen smart Cu-CeO ₂ coatings for commonly touched items	20	nierekomendowany do dofinansowania
85	VRTod	LODZ UNIVERSITY OF TECHNOLOGY	VR aided therapy for personalized treatment of depression	20	nierekomendowany do dofinansowania
87	BIOKOM	Łukasiewicz Research Network - Institute of Ceramics and Building Materials	Influence of applying various measurement methods and techniques on the results of testing the biodegradation and compostability of various biomaterials	19,5	nierekomendowany do dofinansowania
87	Explod3D	Łukasiewicz Research Network - Institute of Industrial Organic Chemistry	Development of high-energetic ink for 3D printing technology	19,5	nierekomendowany do dofinansowania
87	AI4UrbanSpace	Uniwersytet Przyrodniczy we Wrocławiu	The use of artificial intelligence in monitoring urban spaces.	19,5	nierekomendowany do dofinansowania
87	POCdiag	us4us sp. z o.o.	Advanced ultrasound modalities for Point-of-Care cardiovascular diagnostics	19,5	nierekomendowany do dofinansowania

87	MiEMH	Gdynia Maritime University	Development of an innovative Microwave Energy Metamaterial Harvester (MEMH) for recovering the electromagnetic energy from the environment	19,5	nierekomendowany do dofinansowania
87	NuMART	Warsaw University of Life Sciences	Numerical modelling - a tool for management of aquatic-terrestrial areas in lowland landscape	19,5	nierekomendowany do dofinansowania
87	AOLTIC	Jan Matejko Academy of Fine Arts in Kraków	Application of low temperature plasmas in the field of conservation and restoration of precious metal coatings on historical metal artworks	19,5	nierekomendowany do dofinansowania
87	Therm-photo	Gdańsk University	New, high-performance flexible copper-graphene films modified by Janus nanoparticles with photocatalytic and thermoelectric properties	19,5	nierekomendowany do dofinansowania
95	Food4City	Instytut Ekologii Terenów Uprzemysłowionych	Intelligent food production for cities in fully controlled environment	19,5	nierekomendowany do dofinansowania
95	PyoSTEM	West Pomeranian University of Technology in Szczecin	The influence of the stressors on pyocyanin production by <i>Pseudomonas aeruginosa</i>	19,5	nierekomendowany do dofinansowania
95	NEFROSENS	University of Zielona Gora	Development of biosensing system for point-of-care/real-time monitoring of chronic kidney diseases	19,5	nierekomendowany do dofinansowania
95	TUNVENT	Silesian University of Technology	Research on the impact of the shape of a tunnel entrance on the efficiency of natural ventilation	19,5	nierekomendowany do dofinansowania
99	MeOx-NanoFlow	Politechnika Krakowska im. Tadeusza Kościuszki	Process of producing anisotropic metal oxide nanoparticles in an increased scale flow reaction system	19,5	nierekomendowany do dofinansowania
99	GENTLE	Instytut Gospodarki Surowcami Mineralnymi i Energią Polskiej Akademii Nauk	Green energy transition in Poland: cost-effective pathways for the decarbonization of the power system	19,5	nierekomendowany do dofinansowania
101	CLOU-ML	Politechnika Warszawska	Towards cloud-native, big data ready and efficient population-scale ML analyses of sequencing samples.	19	nierekomendowany do dofinansowania

101	RS-MU	Gdańsk University of Technology	Retrofitting suburbia - measuring urbanity using multisource geo Big Data and real estate prices	19	nierekomendowany do dofinansowania
101	CompDesign	Silesian University of Technology	Computational platform to guide experimental design for preclinical studies	19	nierekomendowany do dofinansowania
101	u-DgstCECBioA	Gdansk University of Technology	Innovative microscaled modular in vitro digestion system for assessment of bioaccessibility of selected CECs extractable from packaged food	19	nierekomendowany do dofinansowania
101	REBAM	Cracow University of Technology	Recognition of the bacteria genera and species using deep learning methods	19	nierekomendowany do dofinansowania
101	ImPreGuS	Instytut Geodezji i Kartografii	Improving the precision of gravity measurements with the use of seismometer	19	nierekomendowany do dofinansowania
101	ROCKEt	VIGO SYSTEM SPÓŁKA AKCYJNA	Removal of optical crosstalk in multi-element infrared detectors	19	nierekomendowany do dofinansowania
108	SCWG4WASTE	Centrum Badań i Innowacji Pro-Akademia	Supercritical Water Gasification (SCWG) Technology for Wet Organic Waste Treatment Studies	19	nierekomendowany do dofinansowania
108	DLEPTA	Silesian University of Technology	Development of Low-Emission Propulsion Technology for Aviation	19	nierekomendowany do dofinansowania
108	CYCLO-CAT	Jerzy Haber Institute of Catalysis and Surface Chemistry, Polish Academy of Sciences	The effect of NHPI structure on efficiency of production of oxygenates in aerobic oxidation of cycloalkanes with metalloporphyrin as catalyst	19	nierekomendowany do dofinansowania
108	EndoFlow	Politechnika Warszawska	Development of vascular graft extruder and flow system for in vitro endothelialisation and hemocompatibility testing	19	nierekomendowany do dofinansowania
108	TexWaR	Instytut Technologii Bezpieczeństwa „MORATEX”	An Unconventional Approach to the Textile Waste Redesign	19	nierekomendowany do dofinansowania
108	NanoCoat	Łukasiewicz Research Network-Krakow Institute of Technology	Development of a new generation of metal/ceramic nano-composites with increased tribological properties and resistance to high-temperature corrosion	19	nierekomendowany do dofinansowania
114	BIORET	Politechnika Krakowska im. Tadeusza Kościuszki	Bioretention solutions toward safe friendly public spaces for education areas	19	nierekomendowany do dofinansowania

115	TouchMe	AGH University of Science and Technology	Development of technology and manufacturing of a new generation of economically effective bimetallic flat rolled products in the sintering and compacting rolling process for antimicrobial products with touch surfaces with COVID-19 / SARS-CoV-2 inactivation capabilities	19	nierekomendowany do dofinansowania
116	HS-ALTiCom	Institute of Metallurgy and Materials Science of Polish Academy of Sciences	High-strength Al/TiC composites produced by two-step process	19	nierekomendowany do dofinansowania
116	NeWtEch	Silesian University of Technology	Development of negative CO2 emission technology in waste-to-energy sector	19	nierekomendowany do dofinansowania
116	2DMaterials4VLC	Politechnika Warszawska	Two-Dimensional Materials For Visible Light Communication	19	nierekomendowany do dofinansowania
119	ANTIPOLYNANO	Łukasiewicz Research Network - Tele and Radio Research Institute	Modification of polymer with the antibacterial nanocomposite CuO/Ag	18,5	nierekomendowany do dofinansowania
120	MOReWATER	Akademia Górnictwo-Hutnicza im. Stanisława Staszica w Krakowie	Mature oilfields revitalization for potable water production	18,5	nierekomendowany do dofinansowania
121	3DP-PAG	Łukasiewicz Research Network - Institute of Precision Mechanics	New 3D-printed Graphene Polyamide Composites for packaging industry.	18,5	nierekomendowany do dofinansowania
121	IREAP	Lodz University of Technology	Interactive Reconfigurable Environments for AI-powered Performance	18,5	nierekomendowany do dofinansowania
121	SPEC-DIAG-RED-tools	Jagiellonian University in Krakow	Adaptive prototyping of vibrational spectroscopy tools for packed red blood cells quality determination	18,5	nierekomendowany do dofinansowania
121	HIPIR	Łukasiewicz Research Network- Institute of Microelectronics and Photonics	High performance LWIR QCLs: design, fabrication and thermal optimization	18,5	nierekomendowany do dofinansowania
121	SILCOMP	Łukasiewicz Research Network - Krakow Institute of Technology	Composite alloy silumins reinforced with precipitation, such as Zr and Mo, with increased strength parameters, for high-temperature applications.	18,5	nierekomendowany do dofinansowania

121	SilicaSalt	AGH University of Science and Technology	New composite materials for adsorption chillers driven by low-temperature waste heat	18,5	nierekomendowany do dofinansowania
121	SWEET	Gdańsk University of Technology	Development of sustainable wastewater treatment system for a single-family house integrating water and bioenergy recovery	18,5	nierekomendowany do dofinansowania
121	MatNaBat	University of Gdansk	Development of novel nanocomposites for sodium-ion rechargeable batteries	18,5	nierekomendowany do dofinansowania
121	BICAT	West Pomeranian University of Technology in Szczecin	High-efficiency bifunctional electrocatalysts for water splitting	18,5	nierekomendowany do dofinansowania
121	MineDepoCE	Akademia Górnictwo-Hutnicza im Stanisława Staszica w Krakowie	Adaptation of the mineral deposits management system in Poland to the contemporary requirements of sustainable development and circular economy	18,5	nierekomendowany do dofinansowania
121	ENGeoPRE	Politechnika Opolska	Ecological Geopolymer Nanocomposites with Conductive Properties for Application in Civil Engineering	18,5	nierekomendowany do dofinansowania
121	HEART	Silesian University of Technology	Visualization and characterization of intraventricular flow patterns using validated echo PIV in phantom and in patients after valve repair	18,5	nierekomendowany do dofinansowania
121	GreenEDM	Cracow University of Technology	Green EDM - environmentally friendly spark erosion machining in medical applications	18,5	nierekomendowany do dofinansowania
121	AGRALIBAT	Centre of Polymer and Carbon Materials Polish Academy of Sciences	Advancing 3D graphene materials as active anode platforms for Li-ion batteries	18,5	nierekomendowany do dofinansowania
121	IL4WOOD	Sieć Badawcza Łukasiewicz - Instytut Ciężkiej Syntezy Organicznej „Blachownia”	Formaldehyde-free melamine-urea resin with ionic liquid-based hardener as a new adhesive system for the wood industry	18,5	nierekomendowany do dofinansowania
136	HighFlex	Cracow University of Technology	Monitoring of the thermal and strength performance of pressure components of power units with particular emphasis on start-up and shutdown processes	18	nierekomendowany do dofinansowania
137	HAN	Łukasiewicz Research Network - Metal Forming Institute	Deposition of nanoporous hydroxyapatite coatings doped with copper nanoparticles by vacuum cold spraying	18	nierekomendowany do dofinansowania

138	PbFREEM	Lodz University of Technology	LEAD-FREE GAMMA RAYS AND X-RAYS SHIELDING EPOXY MATERIALS WITH SELF-HEALING PROPERTIES FOR MULTIPURPOSE APPLICATIONS	18	nierekomendowany do dofinansowania
138	CUTTINGS	Gdansk University of Technology	Innovative drill cuttings analysis for better reservoir surveillance	18	nierekomendowany do dofinansowania
138	UHTC	Łukasiewicz Research Network - Krakow Institute of Technology	Processing of Ultra-high temperature ceramics for an extreme environment applications	18	nierekomendowany do dofinansowania
138	SWRisk	Warsaw University of Life Science	Soil Water Repellency as a forest fire risk factor.	18	nierekomendowany do dofinansowania
138	PYROWasteHYDRO	Gdansk University of Technology	Copyrolysis of waste rubber and biomass as a source of valuable products - nanocarbons and hydrogen.	18	nierekomendowany do dofinansowania
138	OXYPHARM	Institute of Nuclear Chemistry and Technology	Application of different Advanced Oxidation Processes for degradation selected psychotropic pharmaceuticals in water and wastewater.	18	nierekomendowany do dofinansowania
138	INTELTRANS	Wojskowa Akademia Techniczna im. Jarosława Dąbrowskiego	An intelligent tool for managing the transport fleet in real time	18	nierekomendowany do dofinansowania
138	SepAlMod	Sieć Badawcza Łukasiewicz - Instytut Obróbki Plastycznej	Development of a technology for the modification of aluminum surfaces of separators for large-size bearings.	18	nierekomendowany do dofinansowania
138	PICCAS	MARITIME ADVANCED RESEARCH CENTRE	Patient Implantable Customized Cardiovascular Assist System	18	nierekomendowany do dofinansowania
138	NDT_wooden_beams	Gdańsk University of Technology	Non-destructive testing of wooden beams using ultrasonic elastic waves in the context of strengthening of historical carpentry joints.	18	nierekomendowany do dofinansowania
148	RehaSkin	Sieć Badawcza Łukasiewicz - Przemysłowy Instytut Automatyki i Pomiarów PIAP	A safety system for a rehabilitation exoskeleton, based on a technology of an artificial skin for robots	18	nierekomendowany do dofinansowania
148	LPGInnov	Polski Rejestr Statków Spółka Akcyjna / Polish Register of Shipping Joint - Stock Company	Reduction of CO2 emission to atmosphere as a result of decreasing the auxiliary engines fuel consumption on LPG gas carriers by optimizing the cooling process of transported cargo	18	nierekomendowany do dofinansowania

			during sea passages, with particular emphasis put on ethylene		
148	ProcedFCAWstorage	Gdańsk University of Technology	Development of a new procedure for assessing the suitability of stored flux-cored wires for FCAW welding	18	nierekomendowany do dofinansowania
148	PelletMix	Łukasiewicz Research Network - Wood Technology Institute	Fuel granulates from mixtures of lignocellulosic materials with properties minimizing technological problems during their combustion	18	nierekomendowany do dofinansowania
148	EkoBEE	Łukasiewicz Research Network - Institute for Engineering of Polymer Materials and Dyes	Biodegradable polymer composites against varroa mites on bees	18	nierekomendowany do dofinansowania
148	HALO	Jagiellonian University in Kraków	A novel approach to develop a non-invasive tool for the prediction about the risk of abdominal aortic aneurysm formation	18	nierekomendowany do dofinansowania
148	FDSAA	Masdiag Sp. z o.o.	Forensic Drug Seizures Analysis - automatization of the process	18	nierekomendowany do dofinansowania
148	DoneVAM	Institute of Chemical Engineering, Polish Academy of Sciences	Development study on the technology for the utilization of Ventilation Air Methane in Thermal Flow Reversal Reactor	18	nierekomendowany do dofinansowania
148	FLISBI	Wroclaw University of Science and Technology	Portable, flexible light source ready for testing in personal phototherapy of bacterial infections in diabetic foot.	18	nierekomendowany do dofinansowania
148	MetaBee	Institute of Bioorganic Chemistry, Polish Academy of Sciences	MetaBee - interactive database of honey bee gut microbiome	18	nierekomendowany do dofinansowania
158	nonSiSolarCell	Akademia Górnictwo-Hutnicza im. Stanisława Staszica w Krakowie	Modification and development of materials for non-silicon thin film solar cells	17,5	nierekomendowany do dofinansowania
159	EPACS	Wroclaw University of Science and Technology	Energy Positive Air Conditioning System	17,5	nierekomendowany do dofinansowania
