# Public ferry terminal – opening Q4 2021

## Expansion of the ro-ro infrastructure

### Expansion of the ro - ro ramps in the V basin with landing

Currently, a feasibility study is being prepared for the investment project:

"Modernization of the Czech, United States, and Romanian Quays and Ro-Ro ramps with the landing of a part of Basin V;

- Planned completion date of the investment - mid 2025.

The implementation of the project will enable the handling of ro-ro units up to 240 meters long and 34 meters width. The expansion of the ro-ro ramps and partial landing of the 5th Basin of the Gdynia Port will increase the capacity of the port ro-ro terminals and the entire commercial connection between Poland and Scandinavia. The
