

Single digital gateway @podatki.gov.pl

**Standardized
Information
about taxes
in Poland**

What is the single digital gateway?

Single Digital Gateway (SDG) is an internet tool designed to help you to live or run a business in other European Union countries – without unnecessary inconvenience and bureaucracy.

SDG brings following benefits for users:

Uniform and consistent information for citizens and entrepreneurs in all 27 countries.

Easy access and reliable content in one place.

Reduction of additional administrative burdens.

Assistance in fulfilling tax obligations by taxpayers.

Less involvement of other EU Member State tax administrations.

Designed to meet the expectations of the National Revenue Administration (NRA) customers, to provide information on Polish tax system for English speakers.
