*Note on CZ:* This number includes all UAMs in the Czech Republic who did not apply for international protection and who are recorded within the child protection system. The total number of 31 UAMs from third-countries who did not apply for international protection came to this specialized Facility for Children-foreigners during 2019. This number of UAMs might not be total because there might be cases which are not included in this figure.

*Note on ES:* the data reflects the total number registered as of 31 December 2019.

*Note on HR:* This number refers only to the number of UAMs detected in illegal border crossing or illegal stay, without those who applied for asylum.

*Note on IE:* The data reflects the referrals made to Tusla, child and family agency in 2019. Unaccompanied minors fall under the care of the Social Work Team for Separated Children Seeking Asylum which is part of Tusla, the Child and Family Agency, the statutory agency for child welfare and protection in Ireland. The Child and Family Agency may then decide that an application for International protection should be made on behalf of the minor. Specific arrangements are made by the International Protection Office (IPO) in conjunction with Tusla for the processing of such an application and Tusla supports the minor throughout the process, including attending at their interview.

“n/i” means data not available

“n/a” means not applicable.

*Note on CZ:* In the Czech Republic all UAMs (including those who do not apply for international protection) are recorded within the child protection system.

*Note on LU:* All UAMs must apply for international protection in Luxembourg. In 2019, 5 female UAMs and 31 male UAMs introduced an application for international protection. 39 decisions were taken during the course of 2019. Out of the 39 decisions, 10 were granted the status of refugee (7 boys and 3 girls). Not all UAMs that received a decision had submitted their application in 2019 (some were before), some that introduced an application in 2019 are still waiting for an answer.

*Note on LV:* In Latvia, if unaccompanied minors do not apply for asylum, they are non-returnable foreigners who are subject to a status determination procedure (e.g. stateless status). They all are recorded within child protection system. So they are the same unaccompanied minors, who have been recognised and are not applying for asylum and who are registered in the child protection system.

*Note on PL:* Presented data refer to the number of unaccompanied minors who stayed in 2019 in Border Guard detention centre specially prepared for minors.

*Note on FR:* The French UAM mission is not informed of situations which could lead to asylum applications and it is not possible to compare these data with those from OFPRA. These data may include some asylum applications.

*Note on MT:* Data is not recorded however in case of UAMs not applying for asylum, if any, the number would be very low.

*Note:* Statistics for third-country nationals refer to “non-EU 28 nor reporting country”. The numerator of the indicator refers to persons aged 18 to 24 who meet the following two conditions: (a) the highest level of education or training they have completed is ISCED 2011 level 0, 1 or 2 (ISCED 1997: 0, 1, 2 or 3C short) and (b) they have not received any education or training (i.e. neither formal nor non-formal) in the four weeks preceding the survey. The denominator in the total population consists of the same age group, excluding the respondents who have not answered the questions “highest level of education or training successfully completed and ‘participation in education and training’”.

Data on CZ: \* Short stay visas

During the year 2019, 9 "C" visas were issued at the airports of the Czech Republic. This number could be included in the total. However, it is not possible to state whether the foreigner belongs to the first column or to the second one.

\*\* This number concerns issued visas for which foreign nationals applied at appropriate Visa and Consular Sections in another EU Member States.

\*\*\* National Visas

Data on HR: Croatia does not issue a National visa (D visa). Third-country nationals who hold a valid Schengen, Bulgarian, Cypriot, and Romanian residence permit do not require a visa for transit through or intended stays in the territory of Croatia not exceeding 90 days in any 180-day period (Decision No 565/2014/EU). Croatia is not part of the Schengen area.

Data on IE: Ireland is not part of the Schengen area. Short stay visas reported are national visas

Data on NL: The data comes from two different sources. The Ministry of Foreign Affairs provided for the data on short stay Visas and the Immigration and Naturalisation Service provided for the data on national Visas.

Data on PT: \*Partial data. Number of visas issued in border control posts.

Data on SI: 951 of 21.873 visas issued to third country nationals coming directly from a third country were issued on border or airport by Border Police.

Data on UK: \*excluding visitor and transit visa.

"c/d" means "Confidential data based on low number of identified TCN victims of trafficking in human beings."

Statistics not provided for DK, RO.

*Data for CY:* 9 female victims listed in the "other forms" were identified as victims of both trafficking for sexual and labour exploitation.

*Data on EL:* Other forms of exploitation: Exploitation of begging - 16 women, 14 men and 6 of unknown sex. Organ Trafficking - 4 women. Forced marriage - 3 women. Exploitation of criminal activities - 1 man, 1 woman. Slavery - 1 man, 1 woman. Recruitment in armed conflict - 1 man. Source: National Reference Mechanism.

*Data on HR:* All three victims of trafficking were from Bosnia and Herzegovina.

*Data on IE:* \* This data contains 4 EU nationals. It was not possible to breakdown further without the breakdown on form of exploitation being affected.

*Data on LV:* Other form of exploitation: servitude.

*Data on NL:* Will be released in October by the Bureau of the National Rapporteur on THB.

*Data on PL:* The table presents the number of TCNs identified as victims of human trafficking. Total number of victims identified in 2019 in Poland (including EU citizens) was 208. The total figure (208) includes TCNs (94), EU citizens (89) and persons with citizenship unknown to the Ministry of Interior and Administration (25). All provided data come from the National Prosecutor's Office.

*Data on PT:* The figures entail beggars, domestic service workers and other categories.

*Data on SE:* The figures only include persons who were, by the Swedish Migration Agency, presumed to be victims of trafficking. For the first time since the Agency started to report cases of human trafficking, the number of cases of labour exploitation was larger than those regarding sexual exploitation. "Other forms" includes begging, unclear purposes and cases where the victim has been forced to commit crimes/handle drugs. Some individuals are presumed to be subject to more than one form of exploitation

*Data on BG:* Data is for January-September 2019.

*Data on BE:* Concerning the first number (527): This quantitative data has been extracted from the database of the College of Public Prosecutors, which is fed by the records of the correctional sections of the public prosecutor's offices at the courts of first instance (computer system MaCH). The last extraction was carried out on 11 January 2020. It is important to specify that the data relating to the labour auditor's offices is not taken into account. Indeed, even if a project is currently underway, analysts do not yet have reliable data for the cases handled by the labour courts.

*Data on CZ:* \*These data include persons who have been prosecuted (criminal proceeding was launched) in relation to the criminal offences according to § 168 (Trafficking in Human Beings) of the Criminal Code (Act No. 40/2009 Coll.). Due to changed methodology the category includes all persons against whom were launched a criminal proceedings during reported period (even for criminal activities committed during previous period).

Data regarding the numbers of persons who were taken into the custody for these offences are not available as it is not statistically monitored for which offence the custody was imposed.

\*\* Data express the numbers of convicted persons (by the final decision) in relation to the criminal offences according to § 168 (Trafficking in Human Beings) of the Act No. 40/2009 Coll (Criminal Code).

*Data on DE:* These data reflects the number of suspects and includes EU citizens.

*Data on EL:* Source: [http://www.astynomia.gr/images/stories/2019/statistics19/2019-emporia\\_anthropon.doc](http://www.astynomia.gr/images/stories/2019/statistics19/2019-emporia_anthropon.doc)

*Data on FR:* Data for 2019 are not available.

*Data on LU:* Numbers of arrested persons are based on the Police Report. The Police make a distinction between identified and non-identified/unknown individuals. Therefore, the number 9 here represents the number of people identified and not necessarily arrested or currently involved in a criminal proceeding.

*Data on IT:* Annual average number of criminal allegations of trafficking in human beings

*Data on HR:* Traffickers convicted is total of non-final and final judgments.

*Data on NL:* It concerns the number of suspects registered at the Public Prosecutor for prosecution of art. 273 (f) Sr. (source: Public Prosecution Service). The number of convictions entails the cases in which art. 273 (f) Sr. is declared proven (source: The Council for the Judiciary). The definition for this number differs from the definition used in 2018.

Data on PL: The number of persons arrested or otherwise involved in a criminal proceeding comes from the National Prosecutor's Office. The number of convicted traffickers comes from the Ministry of Justice.

Data on SE: The numbers are preliminary. The number 51 regards persons involved in a criminal proceeding (Source: Swedish Police Authority).

Data on SK: \*Total number of persons accused of the Crime of Trafficking in Human Beings under Section 179 of the Criminal Code.
