# Predefined Project Implementing Innovative Measures to Mitigate and Adapt to Climate Change in Municipalities in Bulgaria

## Measure

**Stara Zagora** Building an anti-heat island in an apartment buildings area

**Kardzhali** Extending the blue-green infrastructure to the old part of the town

**Plovdiv** Rainwater drainage through constructing rain discharge channels for dammed critical section of the road infrastructure

**Burgas** Building urban natural island to combat heat and intense rainfalls

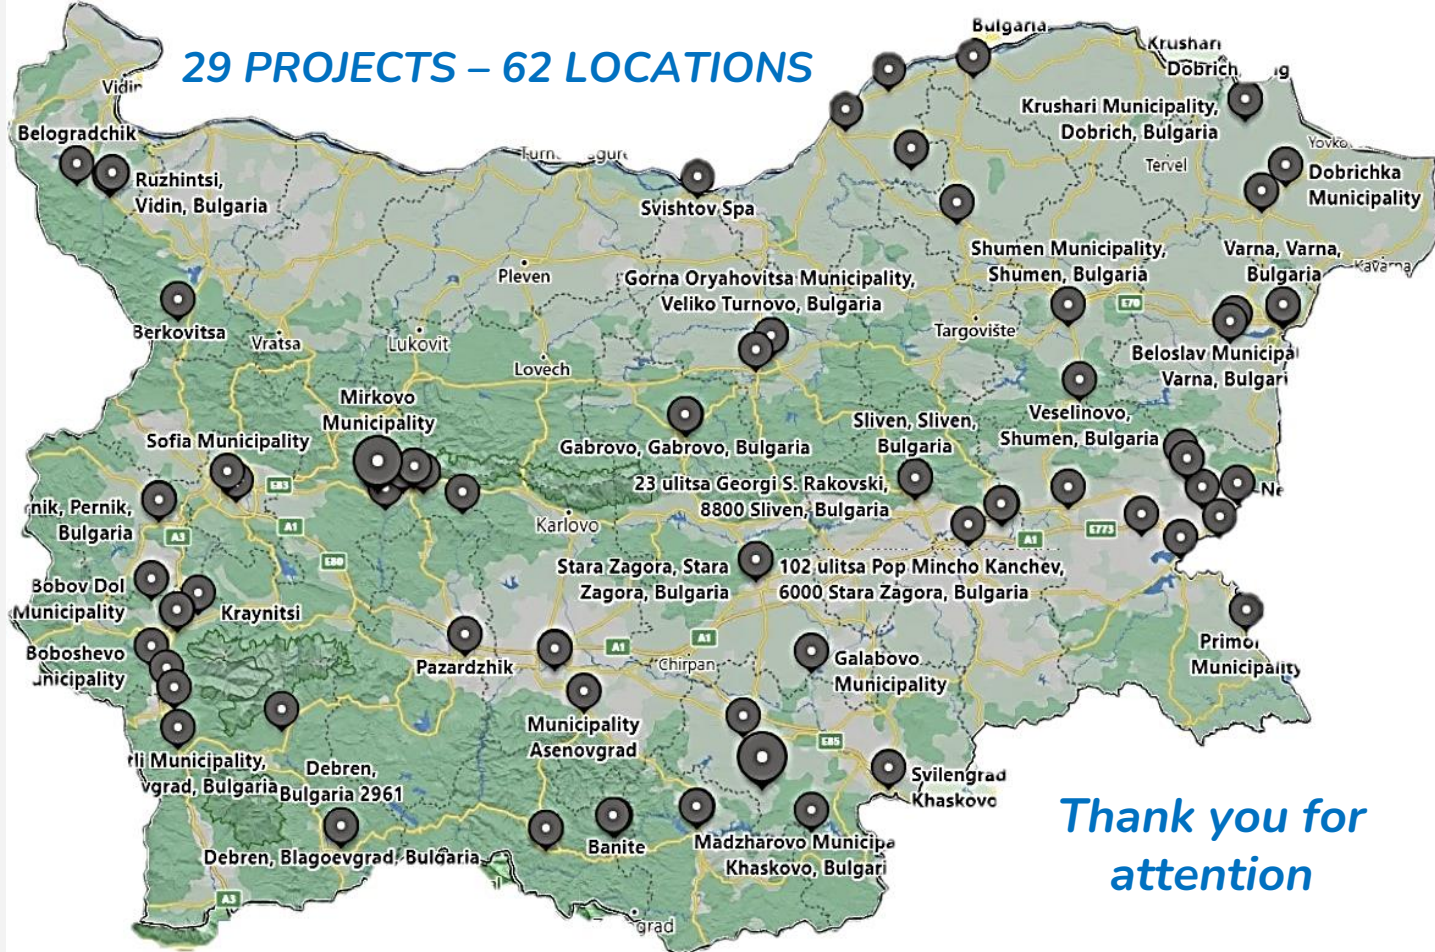

**Sliven** Transforming pedestrian street into a green corridor b/n two city parks in a residential area  
Creating innovative anti-heat island

**Russe** Prevention system for monitoring and control of negative geodynamic processes resulting from intense precipitation

**Varna** Blue-green acupuncture in Vazrazhdane Park - addressing an urban heat island effect by separating a 'cooled' area,

## 29 PROJECTS – 62 LOCATIONS
