ROMANIA CYBERSECURITY  
COORDINATION CENTER

## **VISION**

To enhance Romania's ecosystem in building cybersecurity competence and resilience, in a way that contributes to developing the cybersecurity capacity and making cybersecurity EU's competitive advantage

**NCC RO** 

ROMANIA CYBERSECURITY  
COORDINATION CENTER

### Who we are?

In recent years, Romania has placed digitalization at the heart of all policy areas, including its development cooperation with the EU neighboring countries. The country's digital priorities (both domestically and internationally) include **promoting cybersecurity, digital entrepreneurship, e-governance, AI, connectivity.**

**Starting from July this year, NCC RO is operating through the Authority for the Digitalisation of Romania (ADR), according to the Romanian Government Decision.**

COORDINATION CENTER**

## **Experience**

**Intermediate Body for the management of the  
European Structural and Investment Funds &  
Implementing agency for the NRRP**

Promoting, encouraging and  
facilitating the participation of civil  
society, SMEs, the academic and  
research community in cybersecurity  
projects and actions.

**Beneficiary/Partner in projects submitted under  
Digital Europe Programme (DEP)**

Partners in 2 projects that have just  
been approved and will be contracted,  
under DEP

Until November, we want to resubmit  
our own project as NCC (which has  
already been approved by DEP)

### Proven Track Record in EU-Funded Projects

With experience in managing and contributing to multiple successful EU-funded projects.

### Access to National and European Funding Opportunities

NCC RO can assist in identifying and securing additional funding sources, to support the consortium's activities and ensure long-term sustainability.

### Communication and Dissemination Expertise

The NCC can lead or support the consortium's communication and dissemination efforts, utilizing its experience in engaging with stakeholders, policymakers, and the broader public to maximize the project's impact.

### Experienced Multidisciplinary Team

NCC RO brings a highly skilled team of researchers, engineers, and analysts with experience in cybersecurity, data protection, AI, and digital transformation, offering a well-rounded capability to address complex challenges.

### Established Network of Industry and Academic Partners

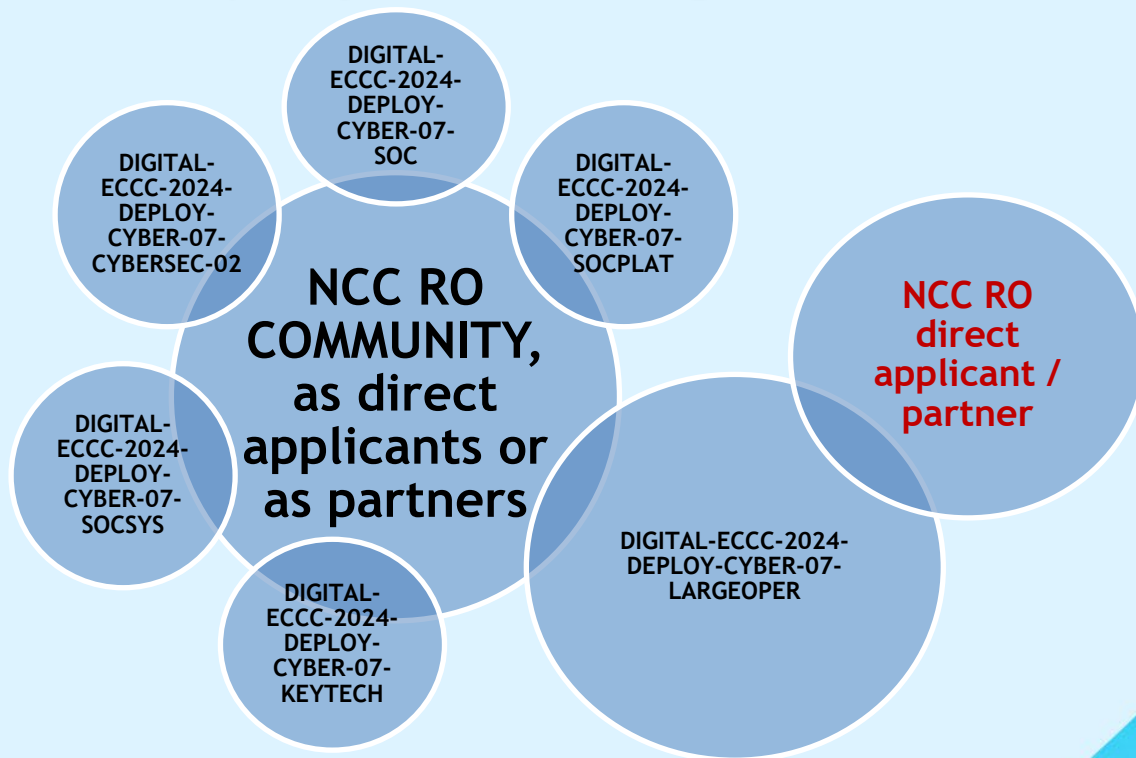

NCC RO can leverage its extensive network of partnerships with leading universities, research institutions, and industry players, facilitating collaboration and knowledge exchange across the consortium.
