

FORM FOR EMPLOYERS

INSTITUTION: Łukasiewicz Research Network – PORT Polish Center for Technology Development

CITY: Wrocław

POSITION: PRINCIPAL INVESTIGATOR in Biodegradable Polymers at Materials Science & Engineering Center at Materials Science & Engineering Center

DISCIPLINE: Biodegradable Polymers

POSTED: 17.12.2024

EXPIRES: 16.01.2025

WEBSITE: <https://port.lukasiewicz.gov.pl/>

KEY WORDS: Biodegradable Polymers

DESCRIPTION:

Łukasiewicz Research Network – PORT Polish Center for Technology Development is a Research Institute within the Łukasiewicz Research Network. It focuses on development of new technologies, resulting from basic and applied research, which, in turn, serve as a basis for innovative solutions for the industry. With high-class specialists and state-of-art infrastructure, we provide capacity for the most advanced research. Our Institute consists of three research centers – Life Sciences & Biotechnology Center, Materials Science & Engineering Center and Center for Population Diagnostics, with access to specialized core laboratories – a combination, which allows to carry out both, scientific research and pilot studies for the industry in a comprehensive manner.

Due to our growing needs, we are currently searching for outstanding Candidates for the position of

PRINCIPAL INVESTIGATOR in Biodegradable Polymers at Materials Science & Engineering Center at Materials Science & Engineering Center.

For our Materials Science & Engineering Center we are looking for an Investigator, preferably in the rank of an Associate Professor, with broad international contacts and proven scientific accomplishments in the field of polymers including biodegradable ones, as evidenced by publications in top their scientific journals and presentations at leading conferences as an invited speaker.

Ideal candidate should have the ability to formulate sound research hypotheses and to verify them through well-planned experiments. The researcher should be interested in finding solutions with realistic potential to be utilized in industrial applications, in the field of polymers. The candidate

should be able to seamlessly transition from high-quality basic research, to commercially-oriented applied activities built on the results of his/her basic research.

Principle Investigator will responsible for leading a research team and implementation of innovative solutions to complex scientific challenges, conceptualizing and managing research projects and developing project proposals.

Mandatory Requirements:

- Experience in polymers chemistry including synthesis, characterization and using of biodegradable polymers;
- Established record of successful project execution within R&D activities;
- Post-doc training (or other type of internship, e.g. scientific exchange) abroad in one of the leading research centers;
- Proven ability to raise funds from external sources, including international grants and/or funds from the industry;
- Experience in successfully conducting research in cooperation with other units, especially in scientific and scientific/industrial consortia;
- Experience in running own research group and managing projects and/or scientific consortia for at least 3 years and a strong inclination to interdisciplinary cooperation;
- Proven ability to convince others to innovating ideas, and to implement them effectively;
- Excellent command of the English language.

Desired Skills:

- Familiarity with polymers characterization using physicochemical methods;
- Experience in working with students (including PhD students).

Our offer:

- Full-time contract and a competitive salary at the level of remuneration for research group leaders in leading international centers;
- Commensurate with experience 36 days of paid holidays annually;
- One-time relocation bonus, help in the relocation, residence permits, etc;
- Start-up package – for setting up a research group;
- Annual research budget, guaranteed for a minimum first 3 years of research;
- Laboratory and office space for the PI and the team members;
- Administrative and organizational support;
- A friendly, inspiring, interdisciplinary and international environment;
- Co-financing for private medical care;
- Co-financing for a sports card;
- Possibility to join group life insurance;
- Co-financing under the Social Benefits Fund (for holidays and Christmas);
- Free parking space.

Please attach your resume, letter of motivation and a list of publications.

Please provide recommendation letters from at least two well-established scientists.
