

23rd Meeting of the Baltic Division of UNGEGN

2-3 October 2024, Vilnius, Lithuania

Maciej Zych

Chair of the Baltic Division of the United Nations Group of Experts on Geographical Names

22nd Meeting of the Baltic Division

15th–17th March 2023, Warsaw, Poland

- 24 experts (Estonia, Latvia, Lithuania, Poland + Czechia, Slovakia)
- 17 reports

22nd Meeting of the Baltic Division

Important decisions:

- support the “Joint statement by UNGEGN experts from Estonia, Latvia, Lithuania and Poland in response to the aggression against Ukraine”
- cease all official contacts with representatives of Russia and Belarus within the Baltic Division and UNGEGN
- decide that English remains the only working language of the Baltic Division
- cancel all works related to the “Rules of the Baltic Division of the United Nations Group of Experts on Geographical Names”
- confirm the rotation scheme for: electing the chair & the vice-chair, selecting a hosting country of a subsequent meeting

22nd Meeting of the Baltic Division

UNITED NATIONS GROUP OF EXPERTS
ON GEOGRAPHICAL NAMES

BALTIC DIVISION

Since 1967 and until 2017 the United Nations have organized every five years conferences on the standardization of geographical names, with the goal of promoting the use of standardized place names in international communication. Items discussed at the conferences include:

- formation of national names authorities,
- distribution of information on geographical names (data bases, gazetteers),
- adoption of single romanization systems for every non-Roman language,
- toponymic training courses and seminars,
- toponymic guidelines,
- list of country names,
- standardization of geographical names in multilingual areas,
- limitations on the use of exonyms,
- toponymic terminology.

Starting 2019 these tasks have been overtaken by the **United Nations Group of Experts on Geographical Names** (UNGEGN) that holds sessions every two years, the 1st session of the new UNGEGN took place in April-May 2019.

The activities of UNGEGN are based on regional cooperation. In 1992, at the Sixth UN Conference on the Standardization of Geographical Names the **Baltic Division** was formed. The Division consists of experts from Estonia, Latvia, Lithuania, Poland (since 2012) and the Russian Federation. The coordinators and Chairs of the Baltic Division have been the following: 1992–1998 Estonia (Peeter Päll), 1998–2002 Latvia (Jurģis Kavacs, Vita Strautniece), 2002–2007 Lithuania (Danutė Mardosienė), 2007–2012 Estonia (Aule Kikas), 2012–2017 Russian Federation (Marina Morozova), 2018–2021 Latvia (Vita Strautniece). Since 2021 the Division is coordinated by Poland, and the Vice-Chair is named by Lithuania. In addition to linguistic/geographical divisions UNGEGN has formed working groups to deal with specific questions. These working groups are attended by experts from various countries.

During the four-year period from 2021 to 2025 Poland will coordinate the activities of the Division. At the 21st meeting of the Division held in Tallinn/virtually in September 2021 Mr. **Maciej Zych** was elected Chairperson of the Baltic Division. Ms **Rita Viliuvienė** from Lithuania will serve as Vice-Chair.

To give an overview on the activities of the Baltic Division concerning the standardization of geographical names the Place Names Board of Estonia has opened a page that contains documents in English and Russian, presented at earlier international forums on names standardization. In addition to the work in the Baltic Division experts have participated as guests at sessions of the Norden Division and Eastern Europe, North and Central Asia Division of UNGEGN.

More information on the activities of the United Nations in the field of standardization of geographical names you may find at the [UNGEGN website](#).
