1. Introduction

As at 1 July 2018, all taxable persons who maintain tax books and generate accounting evidence in electronic form are obliged to transfer JPK structures at the request of tax authorities. As a result of consultations, a new JPK_ST_KR structure was separated (from the originally proposed JPK_KR structure) and covered the model of the logical structure regarding property, plant and equipment.

Payers of corporate income tax ^[1] will be obliged to send JPK_ST_KR to the competent tax office **for the first time for the tax year**, and in the case of companies other than legal persons – for **the financial year**, beginning after: ^[2]

(1) **31 December 2024** – in the case of:

- (a) tax groups,
- (b) taxable persons and companies other than legal persons whose revenue earned in the previous tax year or financial year, respectively, exceeded the equivalent of EUR 50 million translated into the Polish zloty at the mid-exchange rate for euro quoted by the National Bank of Poland on the last business day of the previous tax year or financial year, respectively;

(2) **31 December 2025** – in the case of taxable persons and companies other than legal persons required to submit JPK_VAT records referred to in the Value Added Tax Act ^[3];

(3) **31 December 2026** – in the case of other taxable persons and companies other than legal persons. In the case referred to in item 1, if the tax year or the financial year, as appropriate, for which JPK_ST_KR is to be submitted, ends before 31 December 2025, JPK_ST_KR should be sent by the end of March 2026.

The following persons are **exempt** from the aforementioned obligations:

- taxable persons subject to a tax exemption ^[4], except for family foundations;
- taxable persons entitled to submit a tax return in paper form ^[5];
- persons maintaining simplified records of revenue and costs.

Entities paying corporate income tax ^[6] will be obliged to send JPK_ST_KR to the competent tax office **for the first time for the tax year** beginning after: ^[7]

(1) **31 December 2025** – in the case of entities which are required to submit JPK_VAT records referred to in the Value Added Tax Act ^[8];

(2) **31 December 2026** – in the case of entities other than those specified in item 1.

Deadlines for submitting the JPK_ST_KR file

Payers of corporate income tax submit JPK_ST_KR:

- by the closing date for submission of a return ^[9] or a declaration ^[10];
- companies other than legal persons whose partners include not only natural persons – by the end of the third month after the end of the financial year of those companies.

Payers of personal income tax submit JPK_ST_KR by the closing date for submission of a return ^[11].

How to submit JPK_ST_KR structures

By electronic communication means, in electronic form corresponding to the logical structure available in the Public Information Bulletin at the website of the office at the minister competent for public finance, in accordance with the rules specified in the regulation issued by the minister competent for public finance ^[12].

Fields (data) formats of JPK_ST_KR accounting books

General characteristics of the fields' format:

- (1) the file format is XML;
- (2) the character fields are alphanumeric fields. Small and capital letters and digits are allowed. Polish diacritics must be entered with the use of UTF-8 encoding. Special characters such as “/”, “-”, “:”, “+” may be used in character fields. Special characters must meet the XML file format. Most fields in the form are character fields. Fields containing e.g. an invoice number are also character fields;
- (3) numeric fields are intended for numbers only. Values should be provided in the form of continuous sequences of digits; no separating marks (e.g. spaces) are allowed for thousands. A dot (“.”) is the only admissible decimal separator. Amounts in the JPK file should be rounded up to 2 decimal places (e.g. 12345.56);
- (4) dates should be entered as YYYY-MM-DD, e.g. 2025-03-21;
- (5) dates and time should be entered in one field only, i.e. the field intended for the date and time when the file is generated. The date and time format is YYYY-MM-DDTHH:MM:SS (e.g.: 2025-03-21T09:30:47Z; where T stands for “Time”). For the Universal Time (UTC), the letter “Z” (ZULU) should be added at the end;
- (6) the tax identification number (NIP) of the entity filing the JPK file should be entered as a sequence of consecutive digits. Spaces or other characters are not allowed.

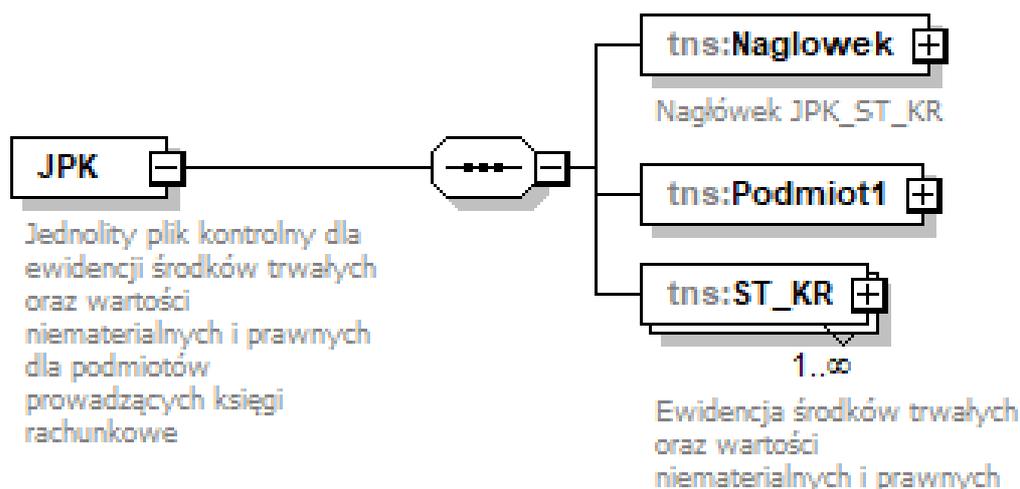

2. Main diagram of the JPK_ST_KR standard audit file

2.1. Structure of JPK_ST_KR

The JPK_ST_KR standard audit file consists of the following nodes: “Naglowek”, “Podmiot1” and “ST_KR”.

The structure of the JPK_ST_KR standard audit file is presented in Diagram 1.
