

we Creators

Revelating the Power of Co-Creation

What is WeCreators?

The community of multidiscipline Creators that ideates and co-creates unique creative solutions for business while working in the teams.

We encourage and accelerate co-creation by providing spaces where Creators become much more than the sum of their individual parts.

WeCreators Creative Process

- Opportunity comes from the demand using ideation process during CreateON events and in WeCreators **digital platform** where it is being transformed into possible solution.
- Based on the Creators talents, experience, interests and compatibility to work together multidiscipline team is created.
- Using WeCreators adapted methodology and governed by experienced Creators (Master Creators), the team co-creates the product.
- Creative product is introduced to the market and monetized with a help of team members having business development knowledge and experience.

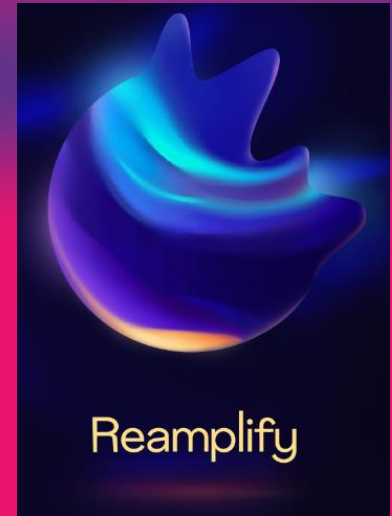

CreateON – a possibility to co-create!

CreateON is a one-day ideation event for the WeCreators community, where new projects are developed through co-creation.

Successful projects selected during the CreateON event continue to be developed during the month-long CreateON Sprint process in the teams and presented to the market as creative products.

We are planning to organize multiple theme based CreateON events and you can be part of it!

Every human is a Creator.

Join WeCreators.

Create bigger things!
