This book is part of the Erasmus + project **Art is in the air** by four European schools:

1. Zespół Szkół Plastycznych w Gdyni, Poland
2. National High School of Art *Tsanko Lavrenov*, Plovdiv, Bulgaria
3. Liceul de Arta Gheorghe Tattarescu, Focșani, Romania
4. I.I.S.S. *G.B. Vico*, Laterza, Italy

This is one of the final products of the project. In this book you will find eight interviewed former students, two of each school. The aim of the project and of writing this book is to show our students the perspectives of people who graduated from art schools and still live with art and art accompanies their lives, helps them develop and make them happy. Those people are teachers who pass everything they have learnt to the younger generations.
