## About event

Future Health Poland 2021 is the three days virtual event with online networking platform in use, powered by artificial intelligence.

It provides unique and much needed opportunity in the face of the challenges posted by the COVID-19 pandemic, combating postponed physical events and travel restrictions.

It is a platform that will allow Polish medical devices and healthcare services suppliers to connect and virtually meet with buyers from the globe.

## Introducing the pillars of medical and healthcare industry in Poland

Future Health Poland 2021 will gather Polish producers, distributors, OEM, startups, exporters, importers and healthcare services providers in one virtual environment to present the strength and range of healthcare and medical industry in Poland.

Disposables & consumer goods
