# The Common State IT Infrastructure Program (WIIP)

## WIIP PROGRAM

Innovative Administration  
Platform

Govtech

Cloud Service Provision  
System

Common Applications

WIIP Project

Gov Cloud

Gov Cybersecurity  
Cluster

Data Recovery  
Services

Development of  
the Integrated Public  
Registry Infrastructure

Data Centers  
modernization

Data Recovery Center  
Modernization

Other initiatives

# Cloud Service Provision System (ZUCH)

## DATA AND SYSTEM CLASSIFICATION SURVEY

Service  
Catalog (Private Cloud)

Service  
Catalog (Public Cloud)

System  
on-boarding planning support

Public  
Procurement Support

## COST ANALYSIS AND UTILIZATION REPORTING

CLOUD SERVICE PROVISION SYSTEM

# Public Cloud – Data flow & Migration

- Common catalog for services – CSP need to match their offer with standard service catalog
- Requirements for migration support provided by CSP
- On-boarding procedures for CSP
- Off-boarding procedures, including standard procedures for data transfer and permanent data erasure

# PROGRAM ACHIEVEMENTS SO FAR

- Council of Ministers' degree regarding the Common State IT Infrastructure program (WIIP)
- IT systems classification criteria for Gov Cloud and public cloud implementation in public administration project
- WIIP co-financing application in the Digital Poland Program (European regional development fund)

# PROGRAM NEXT STEPS

- Publication of the Cloud Cybersecurity Standards (SCCO)
- Public procurement for the service catalog (public cloud)
- Public procurement for the Gov Cloud and Gov Cybersecurity Cluster infrastructure
- Implementation of the ZUCH and service catalogs for private and public cloud
